REDSKIN PEACH

Have you ever tasted a luscious, rich, juicy, golden-fleshed Peach, that combines everything you've ever wished for, every time you've tasted Peaches up to now? A Peach with a flavor so rich and distinctive that it's more than just a "taste." Ozark Nursery is bringing you, this year, such a Peach. We now make it possible for you to have the luxury of picking this wonderful fruit fresh from your own tree. This new, beautifully colored red Peach is another big step in our constant effort to achieve new and better varieties for you. The giant size and glorious color of Redskin makes it one of the best midseason freestones. The flesh is meaty like a cling; yet melting, tender and juicy with an exquisite Peach flavor. Its vivid red color makes a gorgeous sight on the tree, a brilliant fruit on the market and when canned, makes a proud showing of golden fruit and preserves on the pantry shelves. Attains its full color at maturity, and is extremely firm when tree ripened. We think, for this reason, it will be extremely desirable for commercial purposes. For those that desire a firm Peach for canning, this is the answer. This tree is a very young and productive bearer. We urge you to try this wonderful new Peach that ripens a few days after Elberta.

Improved PEACH VARIETIES

Bear Young - Heavy Producers - Orchard Tested and Proven

When we say tested and proven we mean exactly that. For many years we have had commercial orchards. In these orchards we not only try new varieties but keep testing the old ones. Many leading commercial orchardists depend on us for new and improved, true-to-name varieties. Our trees are exceptionally nice this year but the supply is limited—order early and remember the big trees will give quickest and best results. Plant Peach trees 20 to 24 feet apart.

BELLE OF GEORGIA. The favorite white Peach from coast to coast. A heavy producer of large, creamy white Peaches with a red blush. Its excellent flavor makes it a favorite with both home and commercial growers. We highly recommend this freestone Peach that ripens around July 30th.

CHINESE CLING. A huge, round, white Peach with a juicy, yet rather firm flesh. Its flavor is unique and far surpasses all other white Peaches for canning or freezing. Each year we have more and more calls for this Peach at our own commercial orchard. Ripens about July 25th.

EARLY ELBERTA. A large smooth-skinned Elberta without the bitter pit. Almost identical in form with Elberta, but ripens about three weeks earlier. A strong growing and good bearing tree, with a smooth rich flavor and good shipping qualities. Freestone.

ELBERTA. The sensational moneymaker of all times. More popular and widely planted than any other Peach. Fills millions of jars every year. You can't go wrong with Ozark's improved strain of this grand old favorite. In fact, we like it so well, that over 210 acres of this variety is in our own commercial orchard. Freestone, ripening about August 5th.

FAIRHAVEN. In our constant effort to bring you new and improved varieties of fruits, we now offer you Fairhaven. An outstanding new variety developed by Michigan Experiment Station—a cross between J. H. Hale and South Haven. A freestone, self-pollenizing variety ripening about one week before Hale-Haven. Fairhaven trees have shown no weakness with us to date. Vigorous and have an outstanding production record. They have produced well when other varieties have been unproductive—even more frost resistant than the famous Hale-Haven. Fruits of Fairhaven are large, nearly round and mostly red cheek. Fruit is firm and ships exceptionally well for an early Peach. Ripens at a time when Peach prices are highest. Get started with Fairhaven this year.

GOLDEN JUBILEE. A beautiful yellow freestone Peach ripening about July 15th. One of the best shippers among the early varieties. Its good flavor and size plus its excellent quality make it a favorite for both commercial and home planting.

HALE-HAVEN. This outstanding Peach has proven so valuable for both home and commercial orchards that we have a large acreage in our own commercial orchards. Splendid for canning and can be shipped to distant markets and still remain firm. A heavy producer of large, beautifully colored, yellow-fleshed Peaches with a delicious flavor. Extremely hardy. Commands highest prices and will mean profit to you in a home or commercial planting. Freestone, ripening July 20th.

J. H. HALE. A giant sized Peach with an enticing flavor and attractive yellow flesh that looks the prettiest canned of any Peach you have ever seen. Very firm meated and stands long shipments. Heavy bearer and a good grower. Why not profit with a Peach that brings highest prices? Freestone, ripening August 1st.

A NEW INTRODUCTION - HEAP BIG INDIAN

The wonder Peach of Oklahoma and truly a great one started right here in the Cherokee Nation. Ben Davis found this grand Peach as a seedling in an Indian's yard in Tahlequah several years ago. After seeing its immense size and tasting its flavor, he immediately decided this Peach must be propagated. Then a number of years passed while it was in our test orchard before we offered the trees for sale in the nursery. We wanted to see if it had any short-comings, but after thoroughly testing Heap Big Indian, we found it had absolutely no weakness and was the largest Indian Peach we had ever seen. Wonderful for Peach pickles. Ripens about August 1st.

PRICES: 6-8 ft., \$2.35; 4-6 ft., \$1.95; 3-4 ft., \$1.50; 2-3 ft., \$1.25.

OZARK GIANT. A huge Peach—many weighing a pound each. Almost twice the size of Elberta. Ripens about one week after Elberta, lengthening the season for eating fresh, canning, freezing, and bigger profits. Has an exquisite flavor, brilliant red and gold coloring and almost fuzzless, smooth skin. Ozark Giant will make a big hit in your home orchard.

RED HAVEN. A smooth-skinned, almost fuzzless, yellow freestone of fine quality. Ripens uniformly about July 5th. Fruit is ready to pick while still firm and easy to handle. Wonderful for dessert and freezing too.

A NEW OZARK INTRODUCTION

Golden Honey

Another one of Ozark's new and improved fruit sensations. The best and most deliciously flavored Peach ever grown. For years Ben Davis has strived to produce a premium Peach, and he feels this is the climax of his career.

In our test orchard, one young tree produced the outstanding number of 20 bushels of these huge, luscious Peaches, and they averaged 50 cents more per bushel than any other variety on the market. We sold \$721.27 worth off one acre of these heavy bearing trees. Without a doubt this excellent producer and shipper is going to be the leading commercial Peach of the future.

Golden Honey is a sweet, rich yellow Peach with rosy red cheeks and yellow flesh that looks extremely beautiful canned in glass jars. Mrs. Davis says: "Golden Honey is the finest and prettiest canning Peach ever canned." After you have eaten one you'll agree that it has the most unique flavor you ever tasted.

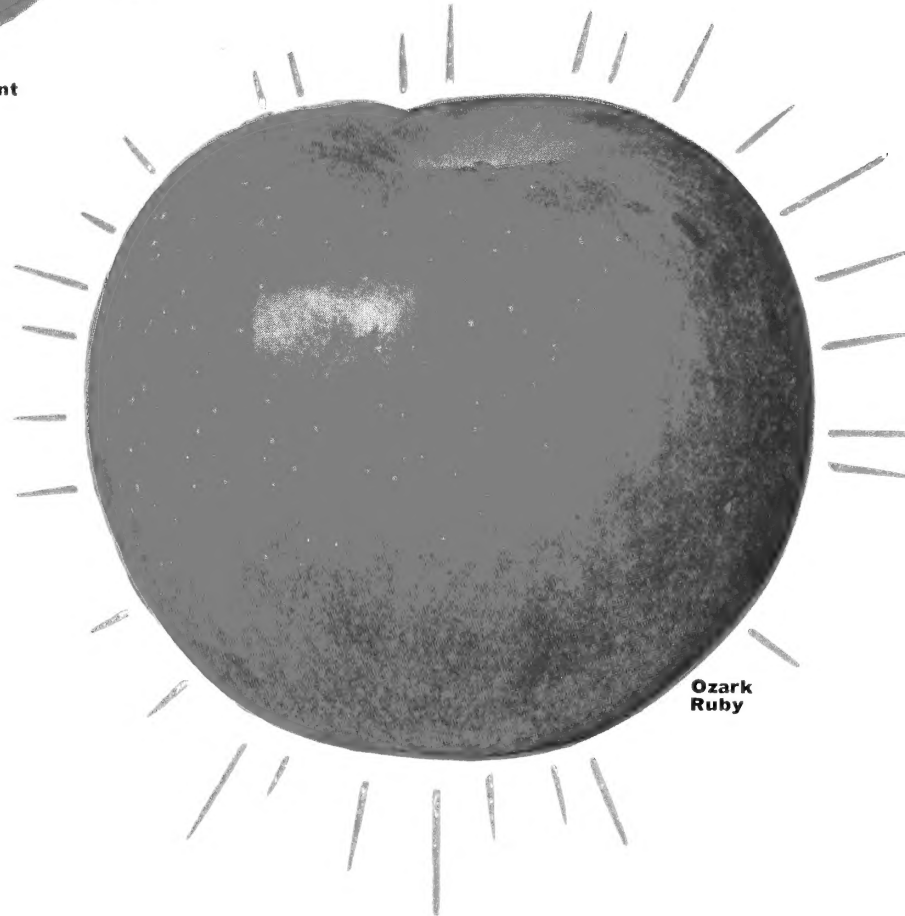

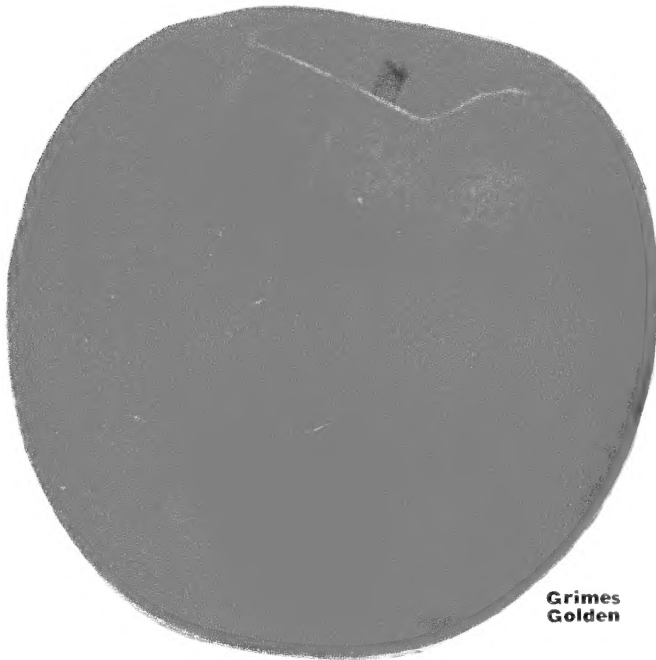

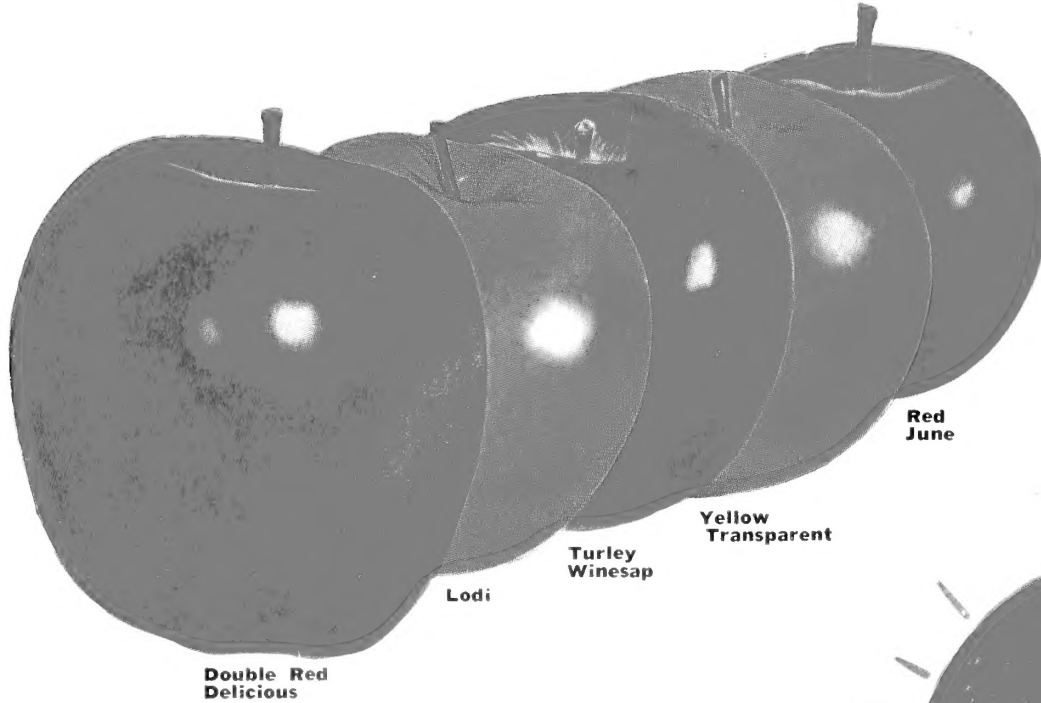

This big handful of luscious honey cling is by far more frost resistant than most Peaches. We have had a crop of Golden Honey every time the seedlings have had Peaches on them. Try some and see if you don't agree that Golden Honey is the most wonderful Peach ever grown.

SUMMER, FALL and WINTER APPLES

For Fresh Apples the Year Around

An Apple tree will give you pleasant shade, lovely blossoms in spring, and a crop of Apples, too; so why not plant one in your yard? Our Apple trees are exceptionally fine this year, all are branched, well rooted trees that will soon start bearing. But remember, the big trees give you quicker and best results. Plant Apple trees 25 to 30 feet apart.

Ozark Ruby — New Summer Apple

Another new fruit sensation which we think is the greatest find in Apples for over half a century. Ozark Ruby is a large brilliant red Apple all over with a satin-smooth finish that polishes to a glistening scarlet. Ripens a week before Jonathan when Apple prices are highest. Colors early and hangs on the tree exceptionally well, prolonging the harvesting season for the commercial grower.

Ozark Ruby has proven to be a consistent, heavy producer of luscious, firm, juicy-fleshed Apples with a flavor that pleases even the most particular taste. Grand for eating fresh, extraordinarily good for canning or freezing, and makes the most beautiful red Apple sauce you have ever seen.

A strong, vigorous grower that is self-fertile. Our supply of this grand Apple is limited; so order early.

SUMMER VARIETIES

EARLY HARVEST. A tremendous producer of medium to large, beautiful orange-yellow Apples. Tender, juicy flesh with a luscious flavor. Fine for eating fresh and exceptionally good for cooking. A healthy tree that fruits in June.

LODI. A greatly improved Yellow Transparent with almost twice the size. Fruit is tender, juicy and richly flavored, making it perfect for eating fresh, pies, cobbles, jelly and Apple butter. Ripens in June when you are anxious for early Apples. A rich yellow, firm Apple that sells and ships well. Outstandingly strong, spreading grower.

RED JUNE. Our earliest red Apple and a good one. Ripens in June when you really want a fresh, juicy Apple. Fruit is medium sized with a remarkable flavor. A tasty Apple that should be in every home planting. Especially good for cooking.

YELLOW TRANSPARENT. Most popular early summer Apple. Ripens in June and is a young, heavy and steady bearer. Its fruit is medium sized, tender and juicy with an excellent flavor, making it a grand cooking Apple.

SUMMER CHAMPION (HOLLAND). The wonder Apple of the South. Has proved to be a consistent, heavy producer of huge, red, smooth, firm, juicy-fleshed Apples. Its delicious flavor pleases every taste. A good packer and shipper; the best commercial Apple on the market today. Ripens in August. Try some of these strong, healthy growing trees and see for yourself what a wonder Apple Summer Champion really is.

FALL VARIETIES

DOUBLE RED JONATHAN. A bright red Apple of excellent quality and tender, juicy, spicy-rich flavor. Grand for eating fresh, but yet contains enough acid to make it fine for cooking. Splendid family orchard variety and highly profitable for market. Very productive and bears young. Ripens in August.

GRIMES GOLDEN. A famous spicy Apple that is wonderful for eating fresh and contains just enough acid to make it fine for cooking. Excellent for pies and Apple butter. Known as the "Queen of Quality" and probably the best all-around Apple. A grand commercial Apple and the choice for home orchards.

TURLEY WINESAP. Strongly recommended by Oklahoma A. & M. College. To much cannot be said of this wonderful all-around Apple, with its large, firm and uniform fruit, crisp and juicy, this Apple is much in demand for cooking, storing or eating fresh. Ripens in October.

WINTER VARIETIES

DOUBLE RED DELICIOUS. The red Apple that is superior to all others for quality. Deemed the Red Apple King from coast to coast. Has never been equaled for magnificent color, mammoth size, crackle-crisp flesh, and deeply exciting sugar 'n spice flavor. A consistent and heavy producer all over the United States. Ripens in September.

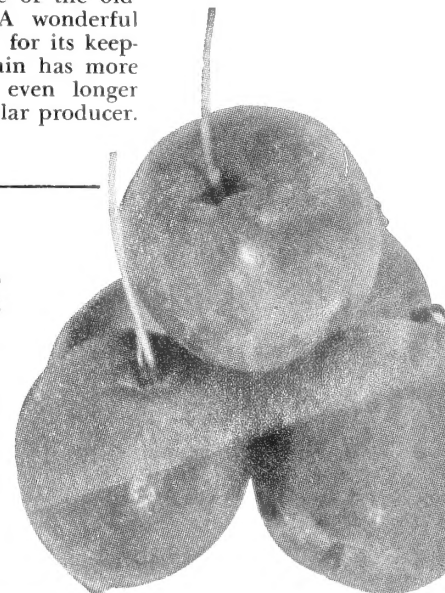

SOLID RED McINTOSH. A large, highly aromatic, bright red Apple with white flesh, fine grained, very tender, juicy and refreshing. Very hardy, bears young and annually—good for both cooking and eating. Ripens in September.

GOLDEN DELICIOUS. Famous for its unique quality. This big, beautiful golden Apple has a luscious flavor that no one can resist. Bears young and heavily. In demand on every market and brings highest prices. The best of the Delicious varieties for the Southwest.

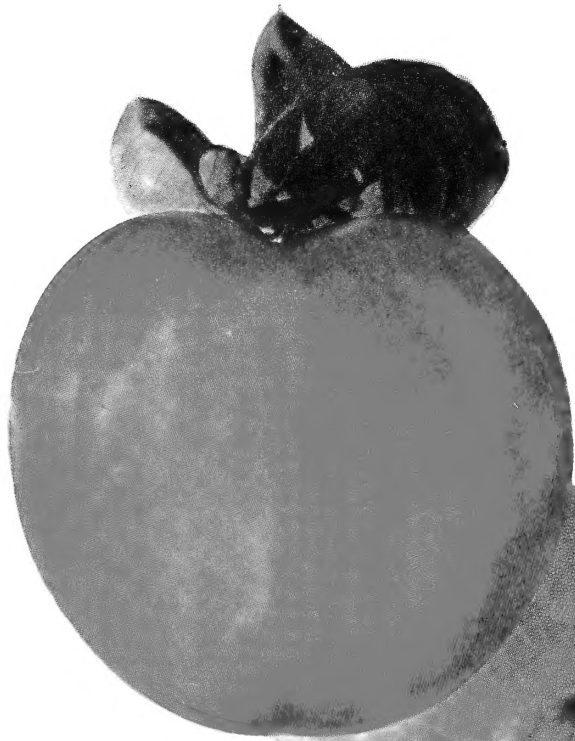

WINESAP (IMPROVED). One of the oldest and most popular Apples. A wonderful eating and cooking Apple. Noted for its keeping qualities. This improved strain has more rich red color, larger size and even longer keeping ability. A heavy and regular producer.

RUBY RED CRAB APPLE

Unexcelled for its luscious ruby-red jelly, preserves, jams and pickles of which any housewife would be proud. Pink blossoms and ruby-red fruit make it very ornamental for yard planting. A heavy producer of large Crab Apples ripening July 5th.

The Most Sensational Fruit of a Decade ✓ HOWARD'S MIRACLE

The introduction of this grand new fruit marks a new era in the advancement of fine fruits for the table. The tantalizing and delicious flavor, the great size, the firm amber flesh, combined with the red and yellow color, places "Howard's Miracle" in a class by itself.

Those fortunate enough to have eaten this fruit offer various comments as to its flavor. Some say the taste is like Pineapple, others compare the taste to a Peach, Plum and Nectarine combined.

This unusual fruit has excellent keeping qualities and makes delicious preserves. Fruit is large size, averaging from 2½ to 2¾ inches in diameter. Exceedingly fast growing and quick bearing trees. Also a beautiful ornamental tree of medium size, foliage persistent, in autumn richly tinted, somewhat like the leaves of a Maple. Bears through June and July.

✓ **AMERICA.** The wonder Plum of the Southwest. Extremely attractive for market with its golden yellow color and cherry-red cheek. An exceptionally heavy bearer that produces sweet, juicy, solid Plums of high quality. Wonderful for canning, Plum butter, preserves and jelly. Very hardy, large, vigorous trees. Ripens in July.

✓ **BRUCE.** The South's best red Plum, ripening in June when you are really hungry for a big, fresh, juicy-ripe Plum. So delicious that it will make your mouth water and it is grand for jellies and jams. A healthy tree that bears young and produces huge fruit. Strong, healthy grower and a sure cropper. Its tantalizing flavor makes it tops for eating juicy-ripe off the tree.

✓ **DAMSON.** An extremely heavy producer that grows anywhere and seldom misses a crop. Fruit is deep purple, rich and juicy. Very hardy, vigorous and easy to grow. Every home should have Damson for jams, jellies and preserves. Big profit maker for commercial growers too. Ripens in August.

✓ **GOLD.** A golden yellow Plum with a luscious flavor. This Plum makes the prettiest and best jelly it has been our good fortune to see and taste. This hardy young bearing tree ripens in July.

✓ **HANSKA.** An Apricot-Plum of high quality and delicious reddish blue fruit. A strong, healthy grower and sure cropper. Its tantalizing flavor makes it tops for eating juicy-ripe off the tree.

✓ **SANTA ROSA.** A big, beautiful, dark red Plum with firm, sweet flesh. This is the same Plum that is shipped in from the coast to your local grocer. It has proven to be hardy, vigorous and very productive in our locale. One of the best for cooking, eating or canning. Ships wonderfully and ranks high on any market.

✓ **SAPA.** A bountiful producer of dark, rich purplish red Plums of good quality and fine flavor. Never a better Plum for making the most delicious, mouth-watering jelly you have ever eaten. Its excellent flavor makes it grand for eating fresh, also. Very hardy tree that seldom misses a crop. Ripens the last of June.

Delicious APRICOT, NECTARINE and PRUNE

APRICOTS

✓ **EARLY GOLDEN.** By far the most thrifty and prolific Apricot grown. The variety best adapted to Oklahoma and the Southwest. The color of this Apricot itself, is tantalizing to your taste. A rich golden orange with a light blush. For flavor, it is simply the finest you ever ate; sweet, juicy, tender and delicious. An all-purpose Apricot for eating fresh, canning, making preserves or freezing. If you have space for only one Apricot, plant Early Golden.

✓ **MOORPARK.** A large, richly colored, fine flavored Apricot that will produce good crops almost every year. It's thoroughly adapted to our climate and its yearly production of big, juicy, delicious, orange-yellow fruit is just what you have been looking for in an Apricot. A good Apricot for home use besides being the leading commercial Apricot.

NECTARINE

✓ **SURE CROP.** A Plum and Peach cross with the smooth skin of a Plum and a seed like a Peach. Has a beautiful dark red color and an unusually pleasing flavor of both the Plum and Peach. This delicious fruit is a freestone, bearing after the second year. A splendid fruit for canning, eating and cooking purposes. Add to all this, the fact that its big, beautiful, pink blooms in the spring make it an ideal ornamental tree. You can't afford to be without one.

PRUNE

✓ **PURPLE GIANT PRUNE.** The best of the Prune varieties. This sturdy, strong and vigorous tree thrives where other Prunes fail. Begins bearing the second year and produces the most delicious, large beautiful, sweet, golden fleshed Prunes you have ever tasted. The fruit from this purplish blue colored freestone Prune makes it a delightful treat to eat fresh from the tree.

GARDEN AIDS for Healthier Plants

DU PONT DORMANT SPRAY OIL

A superior type oil for prefoliage spray on ornamental, fruit and shade trees to control scale insects and over-wintering forms of certain other insects. One quart makes 8 gallons for ornamentals. To insure proper control, use before April 1st. 1-qt. can, \$1.39.

DU PONT FRUIT TREE SPRAY

An all-purpose spray that controls insects, fungus, mildew and blight in your fruit, nut and bush crops from bud to harvest. A spray schedule of how much and when to use on Apples, Peaches, etc., is on the container. Ideal for the home orchardist who doesn't want to worry with mixing a dozen different items each time he sprays. Can be used on all trees and fruits. 1-lb. can (makes 13 gals.) \$1.39; 3-lb. bag (makes 39 gals.) \$3.00.

NEOCHEM PEACH TREE BORER SPRAY

Borers kill more fruit trees every year and up to now the home gardener has been unable to get satisfactory control. Neochem Borer Killer will kill the borers in fruit trees, Poplars, Dogwoods, etc., effectively when used according to directions on package. 1-lb. canister 89c.

DU PONT FAST ACTING SOLUBLE PLANT FOOD

A new spray-on plant food which can be applied to foliage or to the soil. It is a high strength (19-22-16) general purpose fertilizer, readily soluble in water, that quickly stimulates plant growth. Du Pont Urea and trace elements are included in the formula. Will not burn foliage on roots when used as directed. For gardens—lawns—house plants. 6-oz. can (house plant size) 59c; 1½-lb. can (home garden size) \$1.75; 4-lb. bag (large economy size) \$3.25.

DU PONT FERRO F. T. E.

All plants need trace or Micro elements for healthy plant growth. Unless the elements are replaced, many soils continue to decline in productivity, in spite of fertilization with standard fertilizer. Trace element starvation may cause sparse, mottled or discolored growth reducing quality and yield. Now the new scientific development F. T. E., brings these trace elements to you in easy to use, long lasting form. F. T. E. is non-toxic—that means there is no danger in use of excessive amounts. 1-lb. can \$1.00; 5-lb. bag \$2.95.

DOUGLAS. When your teeth sink into a gorgeous golden colored Douglas Pear with its mellow, sweet, juicy, white flesh you've found a Pear you've always dreamed of growing. A handsome Pear of medium size that generally bears the first year. Immune to frost, very resistant to blight and stands dry weather well. A Pear that should be in your planting.

GARBER. An ideal Pear to add beauty and mouth-watering fruit to your garden. Garber has a beautiful golden yellow color with a slight blush of red. Rich, juicy flavor with a smooth and luscious flesh. The Pear suited for every need. Eating, canning, preserving, good for shipping and winter storage. In demand on any market as well as in the home.

KIEFFER. A sure bet for heavy, consistent crops of large, yellow, white-fleshed Pears adapted to all sections. Excellent for cooking, good for winter storage and very sweet and mellow to eat after being picked for a while. Tree very hardy and amazingly vigorous. Plant Garber with it for pollination.

SURE CROP PEAR

Another new improved fruit sensation. The only Pear to have all the best qualities of Pears combined into one. For several years we have had it in our test orchard and it has proved to be a consistent, heavy producer of huge, yellow, juicy fleshed, amazingly delicious Pears that ripen evenly. Its delightful flavor pleases every taste, and many women have said it is tops for canning and preserving with a small core and no waste. This is not all, it stores well, hauls well, and it is good to eat juicy ripe. Sure Crop starts bearing young and has never completely missed a crop in Tahlequah for 24 years. It blooms with Apples but not all at once. Some blossoms are on the trees after first fruits have set. Each year there has been a strong demand for these Pears on the market. By far more resistant to blight than any other variety. Vigorous grower and more spreading than most Pears. The only weak point Sure Crop has is its crooked shape when small, but it straightens up and its colorful foliage makes it an ornamental asset to any yard. Try some.

Ozark's Hardy FIGS and PERSIMMONS

OZARK'S EVERBEARING FIG

Eat Figs this summer from your own trees. Yes, you can have big, soft, fresh, delicious Figs from July to frost the first year with Ozark's Everbearing Figs. Figs will grow on most any type soil, but thrive best where there is plenty of moisture. Hardy and produces abundant crops over most of the United States. They should be protected during the first and second years' growth in the colder areas. While the tops will sometimes be killed back, if this dead wood is pruned away, the plant will make new growth and fruit that season. Very sweet, and tops for preserves.

JAPANESE PERSIMMON

A very hardy variety with a most delicious flavor. The tree is very attractive with large, green, waxy leaves similar to a Magnolia, but literally covered with big orange-red Persimmons that hang until soft ripe. In the fall the leaves turn all shades of lovely colors. If you want a tasty treat, plant some Jap Persimmons.

PRICE: 4 to 5 ft., \$1.98.

CHINESE DATE

(Hardy Jujube)

An entirely different fruit from the far East, about one to two inches long and chocolate colored. Very delicious when eaten fresh but really becomes a tasty treat in preserves and jams. Once you have tasted the preserves on hot biscuits, they will become a "must" for your breakfast.

The tree is a heavy and consistent producer and starts fruiting at an early age, four-year-old trees having produced one hundred and fifty pounds of fruit. It blooms very late in the spring, avoiding all danger from spring frosts. Every home should have one or more trees. It prefers a back yard where it will not be cultivated, but will grow anywhere.

PRICE: 2 to 3 ft. \$1.98 each.

English Walnut Tree

Imagine two of these beautiful trees above on your lawn. Wouldn't they be wonderful for your children to play under in the cool shade during the hot summer months. Better yet, they would furnish enough English Walnuts each year to pay the taxes on your home over and above the tasty Walnuts your family would eat.

Ozark's Wonderful
for Shade

NUT

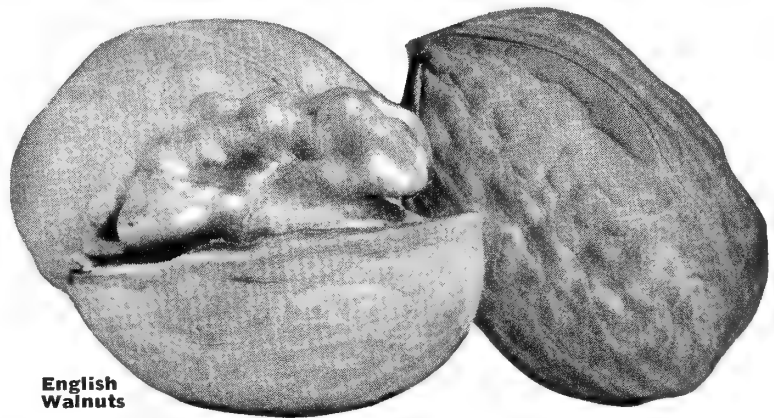

HARDY ENGLISH WALNUTS

No doubt you have often eaten English Walnuts which are grown on the West Coast. There is no need to buy shipped-in Walnuts any longer. With our new strain, found where the temperatures drop to much below zero in the Carpathian Mountains of Poland, you can grow them right in your own yard.

Our trees are propagated from a selected tree, which is a direct descendent from the original seed that was sent from the Carpathian Mountains. This selected tree started bearing very young, and bears heavily and regularly. Nuts are thin shelled and vary in size from that of the California English Walnut to three times its size.

Since the trees are not always fertile, we advise planting more than one tree for perfect pollination and guaranteed success. Trees grow very rapidly and develop into quite large specimens, magnificent for lawns. Often start bearing next year after planting and require practically no care.

PRICES: 3 to 4 ft., \$4.50 each; 2 to 3 ft., \$3.25 each.

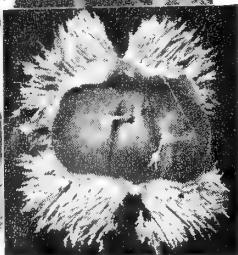

English Walnuts

BUTTERNUT (White Walnut)

The nuts are large, long and nutritious. Much sought for eating fresh and to be used in baked goods, desserts and confections. Trees are lofty and spreading with a tropical appearance. Plant two for best results.

PRICES: 3 to 4 ft., \$1.69 each; 3 for \$4.50.

Chinese Chestnut

HAZELNUT (Filbert)

Round, sweet kernels, easily removed from thin shell and delicious for many uses. Plants are ornamental with deep green foliage and compact, bushy habit of growth. A group of three makes an effective corner planting in your yard.

PRICES: 2 to 3 ft., \$1.25 each; 3 for \$3.25.

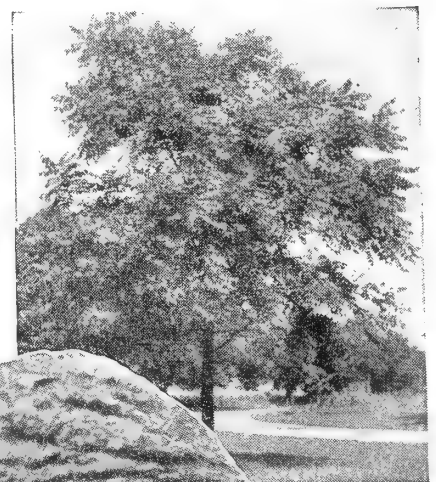

Hazelnut

THOMAS BLACK WALNUT

Our improved grafted Black Walnut is a rapid grower and a heavy producer. It bears young, usually the second year after planting. The nuts are immense size, crack easily, and the kernels come out in halves. Deliciously flavored. Will grow anywhere.

You could easily have 15 to 40 bushels per year from a mature tree right in your own yard, and they sell for \$4.00 or more per bushel. Plant one and increase the value of your property.

PRICES: 4 to 5 ft., \$4.50 each; 3 to 4 ft., \$3.95 each; 2 to 3 ft., \$3.00 each.

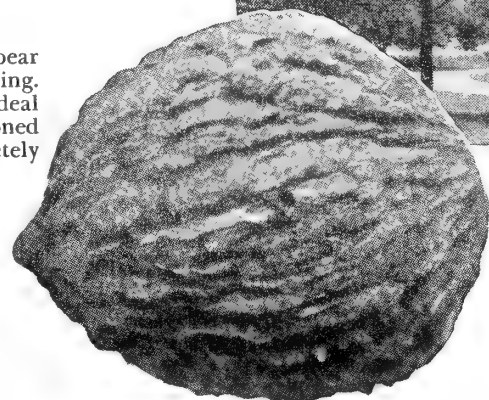

Thomas Black Walnut

CHINESE CHESTNUT

These new blight-resistant trees will bear nuts from two to five years after planting. They are a fast growing tree and an ideal plant to take the place of the old-fashioned American Chestnut that was almost completely destroyed by blight. This new introduction by the U. S. Department of Agriculture is not only blight-resistant, but produces good quality, fine flavored nuts that are much larger than the American Chestnut. Will grow anywhere Peaches will in the United States.

PRICES: 3 to 4 ft., \$1.79.

PAPER SHELL PECANS

Pecan trees are among the best for shade trees in the Southwest. Think of one like the one shown on the right in your yard. It would furnish pleasing shade in abundance, and produce over 100 pounds of thin-shelled Pecans each year. The Pecan has also become an essential part of fruit orchards, for home use everywhere. Pecan trees succeed in various soils; sandy loam, light clay, or sand and clay. The varieties listed are well tried and recommended. Plant Pecan trees 40 feet apart.

STUART

A heavy producing, fast growing variety that originated in Oklahoma and has proven over and over to be the best suited for the Southwest. The nut is large, thin-shelled, and always well filled. Highly resistant to all disease and a consistent bearer of supreme quality Pecans. Very profitable variety for commercial or home planting.

Stuart

SUCCESS

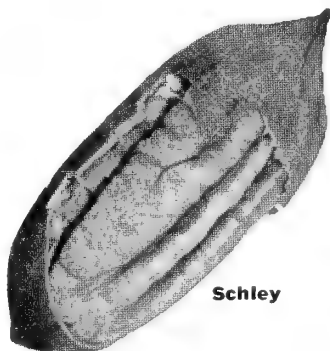

A truly large, plump, thin-shelled Pecan that releases its kernel perfectly. Ripens a few days later than Stuart and is highly resistant to disease. Tree is vigorous grower and an ideal specimen for yard planting.

Success

SCHLEY

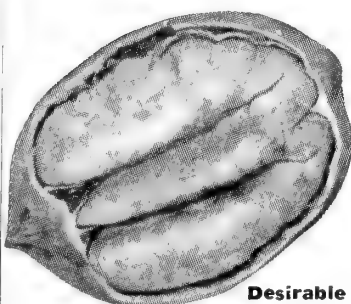

An exceptionally healthy, strong grower, that is a heavy producer. Bears younger than most paper-shell varieties. The shell is thin, easy to crack and the meat is of excellent quality.

Schley

DESIRABLE

A regular and heavy producer of large, round, fat Pecans that bring top market prices. Its flavor is unique and the leader in new varieties. To get the utmost from Desirable, plant on well drained soil and with Schley for perfect pollination.

EDITOR McFARLAND. A clear bright pink Rose noted for long lasting buds. Healthy bushes combine to make this a "must" for your Rose garden.

Prices of Hybrid Tea Roses:

2-yr., No. 1 plants: Each \$1.25; 5 or more \$1.35 each; 10 or more, \$1.10 each. Extra heavy selected plants: Each \$1.50; 5 or more \$1.35 each; 10 or more, \$1.25 each.

ETOILE DE HOLLANDE. Perfect buds produced on upright stems make this the standard for judging red Roses. The bright red color is unfading. Hardy and excellent for cutting.

FRAU KARL DRUSHKI. In all our search for a better white Rose, we still pick this one for perfect buds and delicate flowers. A fragrant Rose borne on an extremely healthy bush.

K. A. VICTORIA. A beautiful Rose widely acclaimed for its abundance of creamy white buds. These buds are excellent for cutting and very fragrant.

PINK RADIANCE. Most popular pink Rose grown. No bush can match the Radiance for hardiness and free blooming habits. A large very double flower.

POINSETTA. Its exciting red color and lasting buds make it a "must" in any garden. Vigorous plant with long, beautiful pointed buds and large double flowers.

PRESIDENT HOOVER. A striking cerise and gold combination. Strong bush that contains many long, sturdy stems. Healthy foliage.

RED RADIANCE. Popular deep red Rose. Exceptionally hardy bushes. If you have room for one Rose, make it Red Radiance.

TALISMAN. Exquisitely formed Rose of orange-scarlet and golden yellow. Long, stiff stems and richly fragrant.

YELLOW CONDESA. Double flowers of rich gold; spicy fragrance. We think the best yellow Rose grown.

Ozark's Choice BROAD-LEAVED EVERGREENS

Beautiful Throughout the Year

These evergreens are unsurpassed for foundation planting since they hold their leaves in winter. Plant them liberally and your home will have a warm natural appearance in winter just as in summer. Each of our plants is a specimen within itself and not to be confused with the small, spindling, baby evergreens which most mail-order firms offer. We suggest that you drive to the nursery (where possible) and pick up your evergreens. Not only do we have larger sizes in some varieties listed, but also other varieties that are not listed.

ABELIA GRANDIFLORA

A hardy, low growing evergreen flowering shrub with glossy dark green leaves contrasting effectively with the red-tinged bark. Blooms profusely all summer with white-tinged pink, bell-shaped blossoms. Grows 3 to 4 ft. tall but can be sheared to any shape. Most beautiful plant in any landscape. Plant several.

PRICES: 24 to 30 in., \$3.65; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.

CLEYERA JAPONICA

A fast growing, medium sized evergreen with bright glossy leaves that have a reddish cast in winter. Has beautiful small white flowers in late spring. However, it is planted for its beautiful foliage other than its bloom. Growing habits are similar to Camellia, and will need some winter protection. A plant that makes a proud showing in any landscape.

PRICES: 18 to 24 in., \$4.98; 12 to 18 in., \$3.98.

ACUBA JAPONICA

(Gold Dust Plant)

A slow growing, medium sized shrub with a tropical appearance. Leaves are dark green speckled with gold and resemble the Magnolia Grandiflora in size but are more pointed. Very hardy if grown in heavy dense shade. Evergreen for beauty in your yard the year around.

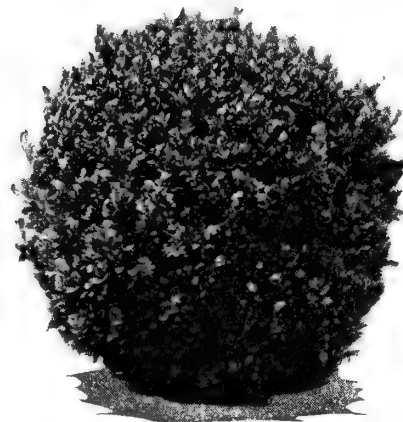

Gal. can, \$1.98.

NEOCHEM ALUMINUM SULPHATE

For acid loving plants such as Azaleas, Rhododendrons, Blue Hydrangeas, Blueberries and Broadleaf Evergreens. Water plants twice a month with 1 tablespoon of aluminum sulphate per gallon of water.

PRICES: 1-lb. can, 69c; 2-lb. can, 89c.

Before

Boxwood

BOXWOOD

A small, attractive plant that grows very slowly. Its dwarfish habit makes it especially useful for window boxes, urns and foreground of foundation plantings. Foliage is small, glossy and dark green. Very hardy and always holds its foliage in winter. We cannot recommend this grand plant to you too highly.

PRICES: 15 to 18 in., \$3.98; 12 to 15 in., \$3.25.

ELAEAGNUS FRUITLANDI

A most versatile shrub for foundation planting, groups, borders and hedges and as specimens. Leaves are large and pointed, dark green above, silvery beneath. Creamy white flowers in fall, followed by yellowish red, edible fruit. Grows better in shady locations than any other shrub, and as well in full sun.

PRICES: 24 to 30 in., \$3.65; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.

PEAT MOSS

Mix one-fourth peat moss with soil when planting and you will get better results. It mellows heavy soils and helps bind sandy soils. Being a pure source of humus, it is needed in most soils. A fine soil conditioner that conserves moisture, keeps down weeds and gives winter protection.

PRICES: 1-peck size, 65c; 25-lb. bag, \$1.89; 50-lb. bag, \$2.49; 100-lb. bag, \$4.79.

Abelia Grandiflora

Elaeagnus Fruitlandi

CHERRY LAUREL

A handsome evergreen that can be grown into a tree or pruned as a specimen. Has dark, shiny green leaves and will become more compact each time you shear it.

PRICES: 4 to 5 ft., \$8.00; 3 to 4 ft., \$6.00; 2 to 3 ft., \$3.98.

OZARK FREE Landscape Service

The first and most important step in planting your home is to start with a carefully balanced, detailed planting plan to exactly fit your individual grounds, using the proper choice of hardy plant materials, placed to the best advantage. The development of this plan will create the picture you wish to attain and prevent many planting disappointments and a needless expenditure of your money.

For years, we have specialized in this service which is free to our customers. You, too, are welcome to take advantage of this opportunity.

If it is possible, come to the nursery with pictures of your house at two or three different angles, along with its blueprint or a rough sketch you might make. Your sketch should show your lot with outlines of house, walks, drives, etc., just as they would look from the air looking down on your house. Our landscape architect will draw the plants you need on the sketch.

Should you not be able to visit our nursery, send the information to us by mail, or write for our landscape architect to call at your home.

Since our landscape department is terribly rushed during the planting season, it is best to give advance notice if you wish our landscape architect to visit your home. Then, when he has an open date he can do so.

EUONYMUS JAPONICA

A lustrous, glossy-leaved specimen of the broad-leaf family. An all-purpose plant that is naturally symmetrical but can be trimmed as a hedge or will cling close to a wall. Our most versatile plant. Grows 6 to 8 feet but can be trimmed to any height.

PRICES: 24 to 30 in., \$3.49; 18 to 24 in., \$2.98; 12 to 18 in., \$2.49.

ENGLISH LAVENDER

A lovely, low growing plant with narrow silvery blue leaves that become a rich powder-blue in winter. Grows in the form of a globe. Especially good for accenting borders of shrubbery. No picture can bring out the exquisite beauty of this plant. Plant one in your yard and have the envy of the neighborhood.

PRICES: 18 to 24 in., \$3.49; 15 to 18 in., \$2.98; 12 to 15 in., \$1.98.

EUONYMUS PATENS

One of the most attractive broadleaf evergreen shrubs. Leaves are a bright green while in fall numerous orange, Bittersweet berries add to its charm. Luxuriant of growth and naturally symmetrical in shape. Thrives in both sun and shade. Use as a specimen plant, background or hedge—can be trimmed any way desired.

PRICES: 24 to 30 in., \$3.49; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.

EUONYMUS PATENS

(Small Leaf)

An ideal evergreen plant that is perfect for foundation planting. Can be grown informally or sheared into a compact, formal bush. Can be used in places suited for Boxwood but is much harder than Boxwood. Leaves are smaller than regular Euonymus Patens, more glossy, and richer green in color. Use for boundary hedges or for enclosing Rose or flower gardens and for formal plantings.

PRICES: 24 to 30 in., \$3.79; 18 to 24 in., \$3.25; 15 to 18 in., \$2.49.

EUONYMUS RADICANS

(Upright)

A beautiful new naturally upright growing evergreen. Beautiful as a specimen planting or as a thick hedge. Stems and leaves stay a beautiful dark green the year around. A truly hardy Euonymus that will stand hot, dry summers and varied winter conditions. This hardy, compact, rapid growing evergreen is something you can certainly be proud to have in your yard.

PRICES: 24 to 30 in., \$3.79; 18 to 24 in., \$3.25; 15 to 18 in., \$2.49.

Euonymus Japonica

CAMELLIAS

CAMELLIA JAPONICA

Camellias are not too difficult to grow. Many fine old specimen plants are to be found scattered throughout the South, where they have been growing for many years with little care, on all types of soil. Until a few years ago Camellias were not considered hardy here, but the ones who were willing to take a chance with them are having good luck. If your area is not colder than a little below zero, maybe you should try them also. Camellia Japonica does best in a partly shaded location in good, well drained soil that is slightly acid. Can be grown as far north as Tulsa, and with good success. Its beautiful, dark green, glossy, all winter foliage forms a perfect setting for its bright, colorful blooms. Undoubtedly the most beautiful flowering plant in the broadleaf evergreen family. The beauty of its blooms is unsurpassed in the garden or as cut flowers for your home. Plant on north or east side for best results.

Prof. Sargent. Peony-type crimson blooms.

Pink Perfection. Double pink flowers of medium size.

Mathotiana Rubra. Large, deep red turning into purple.

PRICES: 18 to 24 in., \$4.98 each.

CAMELLIA SASANQUA

One of the newest and finest of all the broadleaf evergreens. Similar to Camellia Japonica, but looser and faster growing. Very profuse bloomers, the flowers commencing to open the latter part of September and continuing on through November—a time when very few flowers can be had. These handsome flowering evergreens have proven entirely hardy here and we have some customers that are planting them as far north as Kansas City with good success. They do best in a partly shaded location in good, well drained, slightly acid soil.

Extremely satisfactory in landscape work, as individual specimens in foundation plantings and hedges. Plant on north or east side for best results.

VARIETIES:

Cleopatra. Beautiful pink

Snow-on-the-Mountain. Snow-white.

PRICES: 2 to 3 ft., \$3.49; 3 to 4 ft., \$4.98.

Cleopatra Camellia

GARDENIA FORTUNEI

Thick, dark green, glossy foliage surrounding snow-white blossoms make the Gardenia a prize addition to your home. Enjoy its exotic beauty the year around. Should be planted on north or east side and needs some winter protection. Unequalled for its rich perfume. For landscape beauty, for home bouquets, for party corsages — plant Ozark's Gardenia Fortunei.

PRICES: 18 to 24 in., \$2.49 each.

HARDY HOLLIES

Cornuta Holly

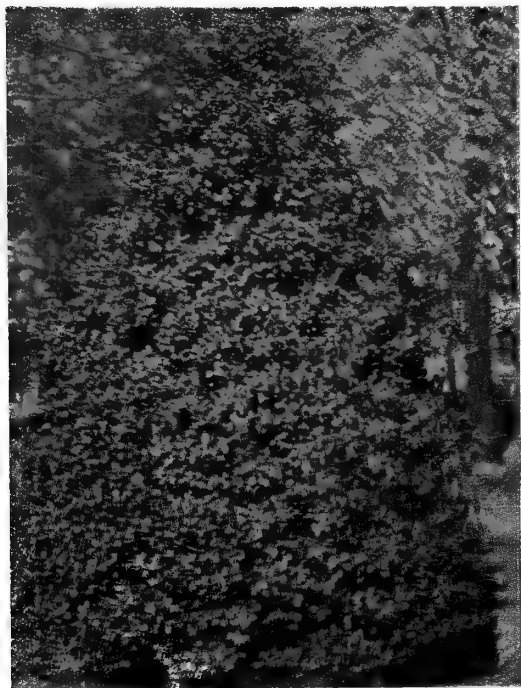

CORNUTA HOLLY

An especially fine strain of Chinese Holly which has taken many years to produce in quantities, but now it's here for you to enjoy. It is very bushy, has large, spiny, dark green, glossy leaves the year around. In winter it produces clusters of red berries which give a pleasing contrast to the dark green, glossy foliage. An absolute "must" for every garden. **PRICES:** 24 to 30 in., \$5.50; 18 to 24 in., \$4.98; 12 to 18 in., \$3.49.

MICROPHYLLA HOLLY

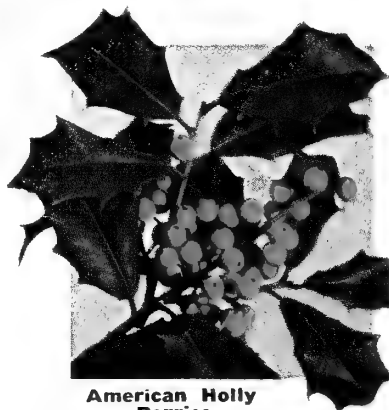

A beautiful, small, very bushy "accent" plant with dark green foliage. The glossy leaves are so thick that the twigs are invisible. Blends beautifully with other evergreens and is perfect for hedges. Extremely hardy, will thrive in full sun or shade. We highly recommend this variety. **PRICES:** 12 to 15 in., \$3.49.

American Holly

AMERICAN HOLLY

The true native Holly you can see growing wild in our southern states, but will thrive as far north as Kansas City. Can be pruned as a specimen or grown into a tree. Spiny, glossy green foliage the year around with bright red berries in winter. **PRICES:** 30 to 36 in., \$5.50; 24 to 30 in., \$3.98; 18 to 24 in., \$2.98.

American Holly Berries

FOSTERI HOLLY

A New American Holly hybrid of exceptional merit. Beautiful foliage of dark green, narrow leaves. Perfect for foundation or specimen plantings. Its very compact growth and abundance of bright red berries make it a "must" in your landscape needs. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98; 15 to 18 in., \$2.98.

DECIDUOUS HOLLY

By all means the showiest and most ornamental of the native deciduous Hollies. Beautiful foliage of dark green leaves and stiff, upright branches. In the fall these Hollies employ the intriguing habit of the strip tease artist by shedding their foliage and baring their branches, the better to display their slender limbs literally encrusted with treasured jewels of tiny but brilliant ruby colored berries. Perfect Holly for any planting. **PRICES:** 4 to 5 ft., \$4.49; 3 to 4 ft., \$2.98; 2 to 3 ft., \$2.49.

EAST PALATKA HOLLY

A hybrid American Holly that always berries and is one of the most promising Hollies in our nurseries. If you want a Holly that is sure to have berries every year, then this is your Holly. Its evergreen leaves are small and practically spineless, allowing the many clusters of red berries to show through in the fall and winter. No Holly surpasses this fast growing variety in the amount of berries borne and the regularity of bearing. **PRICES:** 18 to 24 in., \$3.98; 24 to 30 in., \$4.98.

HARDY EVERGREEN AZALEAS

Azaleas are, without doubt, the most beautiful flowering plants in the South. We are fortunate in having the very best Kurume and Japanese varieties, which are hardy in all sections of the South and will stand winters much farther north by mulching. They have stood as much as 14 degrees below zero here in Tahlequah, without any damage. Azaleas prefer partial shade and acid soil. Should be planted on east and north side for best results. Roots are near surface and should be kept cool and damp by using a two- to four-inch mulch of Peat Moss. Do not cultivate. Add aluminum sulphate to make soil acid, one tablespoon to one gallon of water and water twice a month per plant. An ideal fertilizer is cottonseed meal but do not put in hole when planting.

KURUME AZALEAS

This group is more dwarf in their habit of growth, very beautiful in groups or for planter boxes.

CORAL BELLS. Very profuse bloomer of pink, bell-shaped flowers. Compact grower. Glossy leaves.

HINODEGIRI. Slow, compact grower with fiery red flowers that literally smother the entire plant.

LAVENDER QUEEN. Large, light lavender flowers with white stamens. Leaves large and dark.

SALMON BEAUTY. Large, hose in hose, salmon-pink flowers and light green foliage. Most desirable.

SNOW. Good sized flowers of purest white among beautiful glossy leaves. Liked by all.

PRICES: 8 to 10 in., \$2.29; 12 to 18 in., \$3.49.

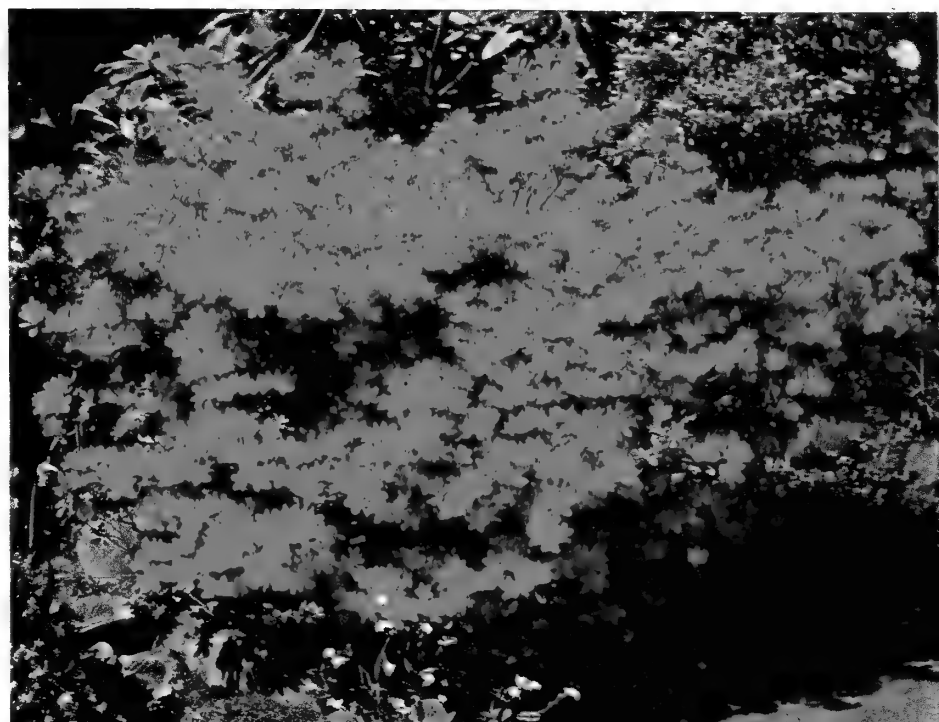

JAPANESE AZALEAS

These are the larger growing varieties that you will cherish more each succeeding year.

KAEMPFERI. The big, single, rose-pink flowers are borne profusely rather late in the season.

MACRANTHA. A very hardy, compact plant with pink flowers late in the season.

PRICES: 10 to 12 in. \$2.79
18 to 24 in. 4.49

for Year 'Round Beauty

OREGON HOLLY (Mahonia)

A beautiful low growing evergreen with striking Holly leaves that vary in hue from dark green to shadings of reds and bronzes. Perfectly hardy but is best in partially shaded spots. Has yellow flowers at the ends of the stems in spring, followed by blue berries. Excellent as a contrast plant. **PRICES:** 18 to 24 in., \$4.98; 15 to 18 in., \$3.49; 12 to 15 in., \$2.49.

YAUPON HOLLY

Really a native Holly of Texas, but plenty hardy as far north as Kansas City. A very compact plant with small, dark green leaves similar to Boxwood. Grows considerably larger than Boxwood and is decorated with large quantities of red berries in winter. Ideal plant for foundation plantings, specimens, or as hedges. **PRICES:** 24 to 30 in., \$3.98; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.

BULLATA HOLLY

The most beautiful small "accent" plant ever introduced. Our picture does not do the plant justice. It is very bushy, has shiny dark green, Boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so thick that the twigs are invisible. Blends beautifully with other evergreens and for small hedges it is a jewel.

Does well in light shade or full sun and is equally happy on alkaline or acid soil, and last but not least, it is hardy. **PRICES:** 15 to 18 in., \$3.49; 12 to 15 in., \$2.98.

Bullata Holly

JAPANESE HOLLY

(Crenata Rotundifolia)

A splendid new, dark glossy green Holly with round leaves similar to Boxwood. Especially suited for spaces requiring a low, dwarf plant. Very hardy and is decorated with black berries. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98; 15 to 18 in., \$2.49.

Japanese Holly

BURFORDI HOLLY

We consider this Holly to be the very best. It is really more glossy and darker green than the picture shows. It carries the beautiful green foliage the year around, with a plentiful supply of big bright red berries in winter. Will grow in either sun or shade and is excellent for foundation plantings. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98; 12 to 18 in., \$2.98.

Burfordi Holly Berries

Burfordi Holly

FRUITONE

A powder containing several plant hormones that stops premature drop in fruit and aids in pollination. When sprayed on female Hollies in bloom, the flowers will "set fruit" without the use of pollen and form berries. Hollies and evergreens hold their leaves much better in winter when sprayed with Fruitone. 2/5-oz. packet 25c; 2-oz. canister \$1.00.

HOWARDI HOLLY

Another hybrid form of American Holly. Beautiful glossy leaves with many clusters of bright red berries make it an ideal Holly for foundations, specimens or most any planting that calls for a compact, medium growing, broad-leaf evergreen. We cannot describe the beauty of this outstanding Holly in words. Its abundance of bright red berries and beautiful dark green foliage make it a plant you must have in your yard. **PRICES:** 15 to 18 in., \$2.49.

Howardi Holly

BROAD-LEAVED EVERGREENS

Beautiful • Lasting • Reasonable

YELLOW JASMINE. We have selected this variety out of several Jasmynes. The foliage is a bright tender green with clusters of beautiful star-like yellow flowers on long, graceful, arching stems. Very hardy, drought resistant. For beauty the year around with its all summer bloom and all winter foliage. You can't go wrong with this plant. **PRICES:** 24 to 30 in., \$3.65; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.

HONEYSUCKLE PURPUREA. A comparatively new plant that retains its purple leaves the year around. Flowers are red and white with a very pleasing fragrance similar to Gardenia. Beautiful for a foundation plant and is especially good for planter boxes. **PRICES:** 18 to 24 in., \$2.98; 15 to 18 in., \$2.29.

WAX-LEAF LIGUSTRUM. The South's most beautiful plant. Has showy, thick, waxy leaves that are dark green on top and light green on the under side. Can be pruned to any shape for specimen plants or beautiful informal hedge. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.49; 15 to 18 in., \$2.29.

NANDINA. Our most interesting plant that changes color with the season. Foliage is bright green in summer turning to vivid red in winter. In spring, panicles of white flowers are produced and in fall clusters of brilliant red berries decorate the entire landscape. Grows 3 to 5 feet, but can be pruned to any height. Use under window and mix with other shrubs for year around beauty. **PRICES:** 18 to 24 in., \$3.00; 15 to 18 in., \$2.49; 12 to 15 in., \$1.98.

PHOTINIA GLABRA. Very attractive evergreen plant that shoots out new growth of brilliant red that almost resembles a bright red flower. This hardy plant can stand much pruning and the more it's pruned the more colorful and compact it is. Wonderful contrast plant for foundation or group plantings. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98; 15 to 18 in., \$2.98.

PHOTINIA SERRULATA. A beautiful evergreen with slightly curled, indented leaves. The new foliage in spring is in contrast of bright colors (mostly red) and grows very compact. Not particular about soil or situation. Can be used many places in the landscape. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98; 15 to 18 in., \$2.98.

GOLD NUGGET PYRACANTHA (Pyracantha Lalandi). Gold Nugget is the gem of all Pyracanthas. It puts on a magnificent display of bell-like, snow-white blossoms followed by masses of berries, each berry rich golden in color, against deep green foliage. Gold Nugget is hardy in all sections and will certainly help to make your lawn the show place of the neighborhood. **PRICE:** Gallon Cans, \$1.98.

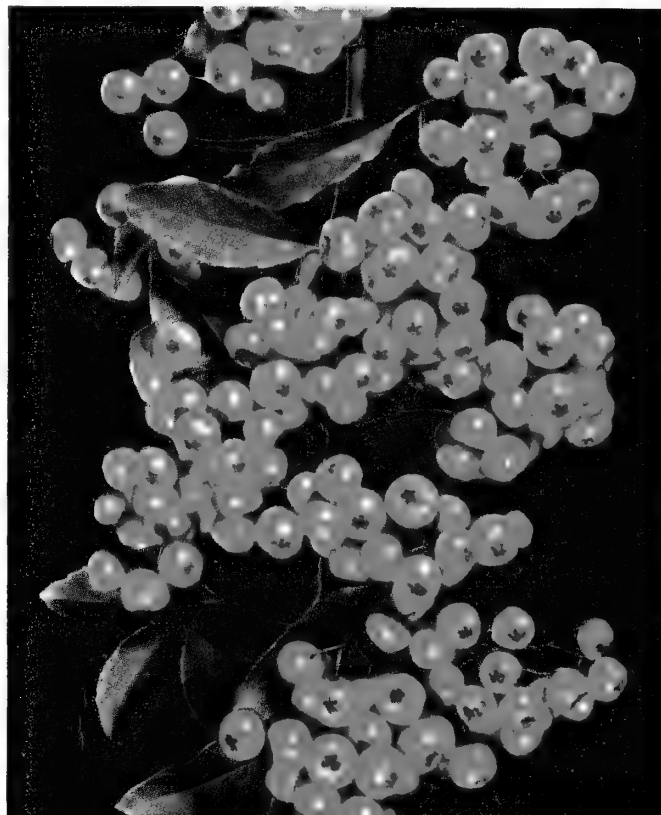

CRIMSON TIDE PYRACANTHA. The picturesque new evergreen Pyracantha that is a sensational beauty. It is lower growing than most Pyracanthas and in spring bright, bell-like white flowers literally cover the plant, followed by fiery red berries which last well into winter. May be used as a specimen, but is particularly attractive when trained against a wall where the rich deep green foliage acts as a splendid foil for the amazing quantities of berries. A spectacular, yet dignified shrub and one to be prized for your garden. **PRICE:** Gallon Cans, \$2.29.

Nandina

Photinia Serrulata

Pyracantha Lalandi

Wax Leaf Ligustrum

Leather-Leaved Viburnum

LEATHER-LEAVED VIBURNUM

One of the most hardy of all broad-leaved evergreens. Thick, leather-like evergreen foliage; creamy white flowers in May and June, followed by clusters of bright red berries during July and August. May be used in foundation planting or evergreen shrub borders. Thrives in full sunlight, but gives best results in partial shade. Merits more extensive use. **PRICES:** 24 to 30 in., \$4.98; 18 to 24 in., \$3.98.

Ozark's Hardy Specimen EVERGREENS

For Beauty Every Season of the Year!

JAPANESE YEW (Taxus)

Until a few years ago Japanese Yew were not considered hardy this far south, but the ones who were willing to take a chance with them are having good luck. If your area isn't any warmer than 105 degrees maybe you should try them also. It is wise to plant Yews on north or east side to protect from hot southwest winds.

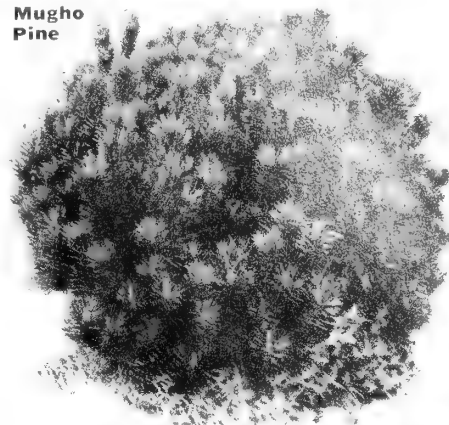

TAXUS CAPITATA. Wonderful for corner planting since its ultimate height is about 12 feet. Typical dark green Yew foliage and beautiful, upright pyramidal shape adds beauty to your yard the year around. **PRICE: 24 to 30 in., \$18.50.**

TAXUS CUSPIDATA (Spreading Yew).

This beautiful plant has dark green, deep foliage of spreading habit. Red fruit in the fall. Makes a wonderful plant for foundation or doorway plantings. **PRICE: 18 to 24 in., \$15.95.**

TAXUS HICKSI. A columnar type Yew with branches ascending almost vertically. It's rich, dark green color and multiple stems make it a fine plant for entrance and foundation plantings. Beautify your yard the entire year with one of these hardy, vigorous plants. **PRICE: 24 to 30 in., \$17.95.**

Mugho Pine

MUGHO PINE

A low, dwarf Pine which grows in a globe shape. Very good for foundation planting and especially on the north or east exposure. **PRICES: 18 to 24 in. Specimen Plants, \$5.49.**

AUSTRIAN PINE

Combine glamour with hardiness. Long-needled, dark green foliage that makes a very compact lawn specimen. Grows into a beautiful large, long-lived tree that is hardy practically anywhere. **PRICES: 4 to 5 ft., \$12.50; 3 to 4 ft., \$10.00.**

COLORADO BLUE SPRUCE

The common "Blue Spruce". Silvery blue colored foliage provides contrast as a specimen planting. Unusual beauty the year around. Although it is a native of the Rocky Mountains, it has proven to be a successful plant for the entire Midwest. To be planted as a specimen tree, as its ultimate height is 60 feet. Select location, if possible, so that it has protection from the hot southwest sun and winds. **PRICES: 3 to 4 ft., \$14.50; 4 to 5 ft., \$18.50.**

Colorado Blue Spruce
Taxus Capitata

MAGNOLIA GRANDIFLORA

The true Southern Magnolia but acclaimed to stand as much as 20 degrees below zero. Intensely fragrant, large, snow-white blooms appear in June against a background of large, glossy, dark green leaves which remain on the tree the year around. Magnolia likes plenty of sunshine and does better when peat moss is worked around its roots. Our plants are exceptionally nice this year. **PRICES: 5 to 6 ft., \$10.00; 4 to 5 ft., \$7.50; 3 to 4 ft., \$5.00; 2 to 3 ft., \$3.98; 18 to 24 in., \$2.98; 12 to 18 in., \$1.98.**

DU PONT APHID and MITE SPRAY

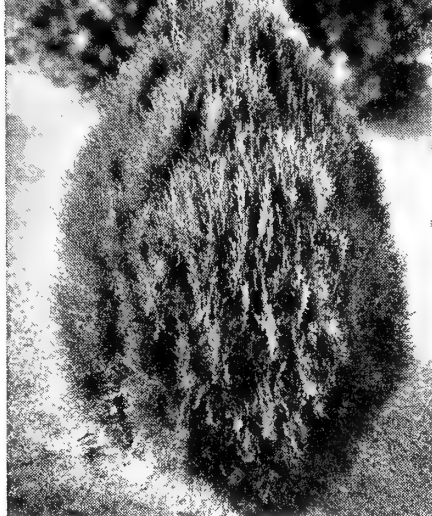

A new powerful insect killer that controls aphids, red spiders, and many other insects. Designed primarily for killing red spiders on evergreens, but equally as good for hard to kill insects on flowers, ornamentals, fruits, vegetables, and house plants. Complete instructions of when and how much to use are on the container. 1-oz. bottle, 59c; 4-oz. bottle, \$1.29.

Plant HEDGES for Beauty, Seclusion and a Friendly Fence

ROSA MULTIFLORA JAPONICA

Fast becoming the most popular living fence, hedge or border. Used extensively as a barrier for all livestock. Has small thorns and grows so dense that even the largest bull will not try crossing it. Can be used as a fence at 60% saving over wire. So practical—yet so beautiful. Makes a bushy plant 6 to 8 feet tall and almost as wide. Can be trimmed to any height or width from 2 to 4 feet when planted 12 inches apart. Makes a beautiful untrimmed hedge when planted 18 inches apart. White flowers in June followed by fruits which birds like. A most practical hedge for your yard.

PRICES: 10 to 18 in., 25 for \$2.00; 50 for \$3.50; 100 for \$6.50; 500 for \$30.00; 1000 for \$57.50.

CALIFORNIA PRIVET

America's most widely planted hedge where the temperature does not go much below zero. Semi-evergreen, with thick, dark green foliage. Most beautiful of all the Privets. A rapid grower, can be sheared to any desired height, making a dense, compact green wall. Plant 1 ft. apart.

PRICES:		Per 10	Per 25	Per 50	Per 100
12-18 in.	\$1.98	\$3.98	\$7.50	\$12.50

LODENSE PRIVET

For those who want the most beautiful trimmed hedge but yet do not like to trim it. An evergreen Privet very similar to Amur River South but a compact, dwarf grower, making it more costly but much less work. Only needs trimming about one-fifth as often. Also makes a lovely specimen plant. Plant Lodense liberally, have beautiful hedge and sit in the shade while your neighbor trims his ordinary hedge. Will be the envy of the neighborhood. Plant 1 foot apart.

PRICES:		Per 10	Per 25	Per 50	Per 100

HOW WAS OZARK NURSERIES BUILT?

Through customer confidence. Customers who had faith and confidence in Ben Davis and the organization he built from the very start. Customers found that they could count on what we told them, but what pleased them most was the discovery that what we shipped was generally slightly better than they expected. They began to look to us for extra quality, for reasonable prices, and for improved and new varieties. They were impressed by our ethics and practices—like selling only fruit trees propagated from bearing orchards.

Yes, customers who have bought year after year, knowing by experience that when they order from Ozark Nursery, they order without risk and with assurance of quality and yield. Over 75% of our business comes from these repeat customers. To our customers we say, thank you and please continue to count on Ozark Nursery for extra quality and extra value.

FREE! USEFUL PLANTING GUIDE

With every order we will include a complete planting guide. It tells step-by-step methods of proper planting in a clear, simple way so that even if you have never planted anything before, you can do it successfully. It also tells how far apart to plant, how to prune, water, care for plants over winter, etc.

WARNING—FERTILIZER KILLS

Do not put fertilizer in hole while planting. It is a good idea to use a small amount on top of the ground around plants after planting, but use caution. According to our replacement records over-use of fertilizer has caused 95% of all losses. We want your plants to live; so please, for the plant's sake, keep fertilizer out of the hole when planting.

THE PLANTS WE GROW

We grow trees and plants by the millions and they go direct to you from our more than 1100-acre nursery and orchard plant. It is the most fertile red sandy loam in eastern Oklahoma, especially suited for producing strong healthy, vigorous root systems.

But we not only grow a good root system, we dig them. Ozark Nursery has a large sum invested in a mechanical digger which goes down and really brings out the roots. We challenge anyone to dig more and better roots than we do. After the trees and plants are dug, they are hauled quickly to our big storage and stored in wet shingletoe. Vitality and vigorous growing condition is assured with the care we give our trees and plants.

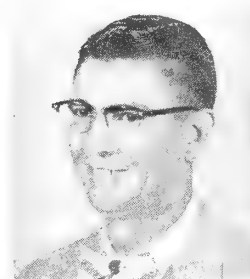

Many firms buy their trees and plants, and they may be shipped and reshipped two or three times before you get them. Avoid getting dried out devitalized trees and plants. Buy direct from us and get a better start.

EVERY SHIPMENT INSPECTED FOR YOUR PROTECTION

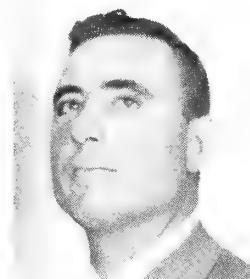

No diseased trees or plants are allowed in our nursery. Government inspectors inspect our growing stock several times yearly to be absolutely certain we have no diseased trees and plants. Besides the Government inspections, we inspect each order to make positive you get only first quality; so you can be assured of the best direct-from-the-grower to you. A certificate of Government inspection is furnished to you with every order.

SHIPMENTS MADE AT THE PROPER PLANTING TIME

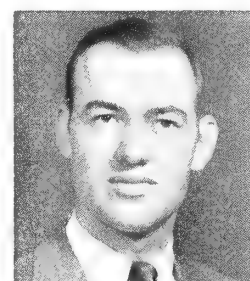

It is best to place your order as soon as possible after receiving this catalog. A card will be sent to you acknowledging your order and shipment will be made at proper planting time in your area.

Ozark's FLOWERING DOGWOODS

PINK DOGWOOD

Our trees are often called Red Dogwood. Especially so, since some years ago we found a tree in our nursery with blooms far richer, and darker pink than any Dogwood we had ever seen. We started propagating from this tree and now have a more brilliant tree than is generally sold. Our Pink Dogwood does best in partial shade and blooms next year after planting. **PRICES:** 30 to 36 in., \$3.25; 24 to 30 in., \$2.49. Balled and Burlapped specimens, 6 to 8 ft., \$16.95; 5 to 6 ft., \$11.95; 4 to 5 ft., \$9.50; 3 to 4 ft., \$7.95; 2 to 3 ft., \$4.98.

No native tree is more admired and extensively planted than the Dogwood. Beautiful as specimens and especially effective in group plantings, furnishing a most pleasing effect in spring when in full bloom.

The Dogwood may be had in Pure White or Deep Pink. Both colors combined in group planting produce a striking springtime picture. Brilliant autumn foliage and red berries which carry well into winter.

WHITE BIRCH

No other tree occupies quite the place in the hearts of garden lovers as this graceful tree does. Its white bark, pendulous branches, delicate green foliage, and deeply cut leaves endear it to all who want a tree both for shade and beauty.

PRICES:

4 to 5 ft. clumps of 3, \$3.49.
6 to 8 ft. clumps of 3, \$6.95.

CRIMSON KING MAPLE

(Patent No. 735)

Truly a captivating King of the ornamental trees with its distinctive, colorful foliage which is a deep maroon-purple from the time it leafs out until the leaves fall. This rich color adds a pleasing contrast to the prevalent greens. Fine for city planting, will live for many generations, becoming more attractive each year. Our trees have a straight stem but will start branching the first summer and you will be delighted with every new leaf, every inch of new growth. Very hardy and easy to grow. **PRICES:** 5 to 6 ft., \$5.95.

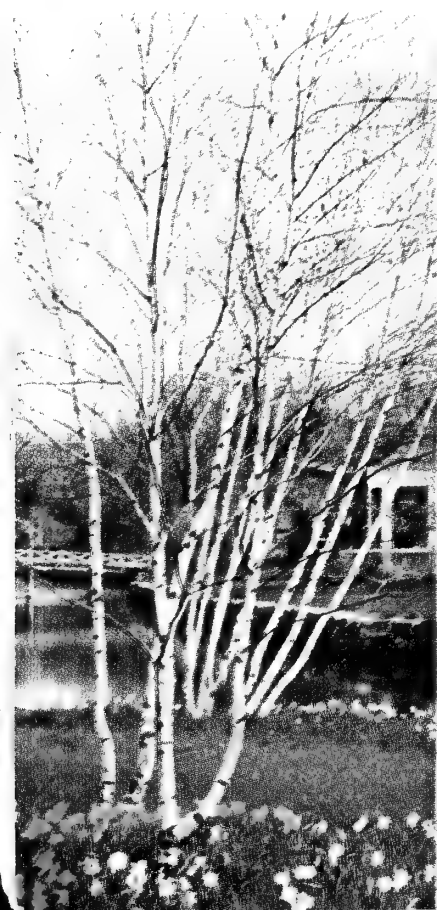

WHITE DOGWOOD

This is the lovely native White Dogwood that is admired by the many thousands each year who drive to Tahlequah and the Cookson Hills on the Dogwood Tour. Our trees are nursery grown, acclimated trees that will give your lawn the same exquisite beauty of the Dogwoods in the Cookson Hills. **PRICES:** 2 to 3 ft., \$1.60. Balled and burlapped specimens, 5 to 6 ft., \$7.95; 4 to 5 ft., \$6.50; 3 to 4 ft., \$3.50.

SUGAR MAPLE

The beautiful, colorful trees seen throughout the Ozark Mountain range in fall are Sugar Maples. Each fall thousands of people drive through the Ozarks just to see the rich scarlet and gold colored foliage of the Sugar Maples. Although the Sugar Maples are prettiest in fall, they have attractive, dense, dark green foliage in summer. Will grow practically anywhere but are exceptionally good for street and lawn planting. **PRICES:** 10 to 12 ft., \$6.50; 8 to 10 ft., \$4.95; 6 to 8 ft., \$3.49; 4 to 6 ft., \$2.49.

Ozark's Shade Trees

Weeping Willow

WEeping WILLOW. A beautiful, graceful tree with long, drooping branches, densely covered with light green leaves. Very hardy and makes the most beautiful specimen tree you have ever seen. Choose from either gold or green bark varieties.

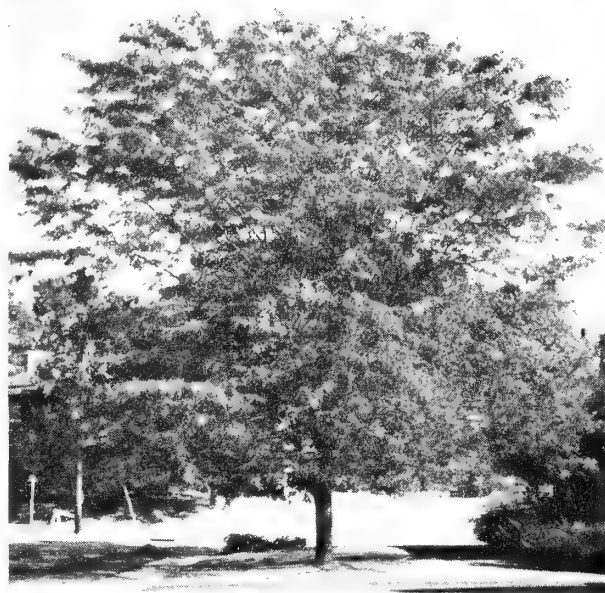

PRICES: 6 to 8 ft., \$2.95; 5 to 6 ft., \$1.95; 4 to 5 ft., \$1.49.

CHINESE ELM. A favorite tree the country over for its beauty and comfortable shade. If you want a sturdy and lasting tree in a hurry, this is it. Wonderful for streets, home ground, or any other place where a fast growing, medium sized tree is desired.

PRICES: 10 to 12 ft., \$4.50; 8 to 10 ft., \$3.49; 6 to 8 ft., \$2.49; 4 to 6 ft., \$1.49.

Lombardy Poplar

Moraine Locust

HYBRID ELM. The fastest growing tree in America. Very hardy, resists drought and disease. Its leaves are large, dark green. The bark is smooth and the branches straight and strong. Will stand high wind, dry summers and cold winters. For a beautiful, permanent, quick growing tree, plant Ozark's Hybrid Elm.

PRICES: 10 to 12 ft., \$5.95; 8 to 10 ft., \$4.79; 6 to 8 ft., \$3.49; 4 to 6 ft., \$2.49.

SWEET GUM. An immensely popular tree with deeply cut foliage that turns to a brilliant red in autumn. Grows rapidly and very good for lawn planting. Must be transplanted with a ball of earth; consequently, it must be shipped express collect.

PRICES: Balled and Burlapped Specimens, 5 to 6 ft., \$6.50; 4 to 5 ft., \$5.00.

CATALPA. Quick growing shade tree with beautiful dark green foliage. Leaves very large and almost heart-shaped. If you need a shade tree quickly, Catalpa is the tree for you.

PRICE: 5 to 6 ft., \$2.49.

BALD CYPRESS. A fast growing tree grown for both its elegant beauty and wonderful shade. Foliage is light green, very graceful and feathery, turning a beautiful shade of orange in the fall. This is the same stately tree that you see growing on the Old Louisiana Plantations.

PRICES: 6 to 8 ft., \$7.50; 5 to 6 ft., \$5.95; 4 to 5 ft., \$4.49.

CUT LEAF WEEPING BIRCH. Words can't describe the beauty and gracefulness of this tree. A large specimen of this small leaf tree grows by our nursery and is a thing of real beauty. Visitors who see this tree growing here say they simply must have one like it. You will say the same.

PRICES: 5 to 6 ft., \$3.75; 6 to 8 ft., \$4.95.

LOMBARDY POPLAR. A handsome tree reaching far into the sky. This majestic tree is a favorite among many Americans, and its rapid growth is a leading factor in its favor. Planted in a row, it will provide a cool wall of shade and a fairly sturdy windbreak.

PRICES: 4 to 6 ft., 75c each; 5 for 65c each; 6 to 8 ft., \$1.10 each; 5 for 90c each; 8 to 10 ft., \$1.45 each; 5 for \$1.20 each.

MORaine LOCUST

(Patent No. 836). Sensational, fast growing shade tree. A vigorous, rapid growing, seedless tree, shaped much like American Elm, but not susceptible to disease. Very clean tree with no ugly, dangerous thorns and no seed pods. The leaves are so fine that when falling they practically disappear into the grass. Its branches arch up and out, giving a wide-spreading vase shape that reaches above a two-story house without obstructing the view or air circulation. Fine foliage makes plenty of cool shade, but lets enough sunshine through for good lawn growth, but not enough for crab grass growth. Will thrive in spite of cold, heat, or drought, on all kinds of soil. Bends under strains of wind and ice and rarely breaks or splits. Be first in your neighborhood to have this wonderful tree that everyone is talking about.

PRICE: 6 to 7 ft., \$7.50.

SILVER MAPLE. A rapid growing, wide spreading tree with deeply cut foliage, dark green above and silvery white beneath, that changes to a beautiful yellow in fall.

PRICES: 10 to 12 ft., \$3.95; 8 to 10 ft., \$2.95; 6 to 8 ft., \$1.95; 4 to 6 ft., \$1.25.

PIN OAK. A rapid growing tree that has no equal for street and lawn planting. If planted now it will be a great pleasure to you and for others for generations to come. The foliage is rich green, deeply cut and colors to a glorious coppery red in fall. Must be transplanted with a ball of earth on the roots, therefore, it must be shipped express collect.

PRICES: Balled and Burlapped Specimens, 6 to 8 ft., \$9.00; 5 to 6 ft., \$6.50; 4 to 5 ft., \$5.00.

HYBRID OAK. One of our most beautiful shade trees. A cross between a Pin Oak and Live Oak, this tree has somewhat the same characteristics of both parents but leaves are more tender green in color. Very hardy, this tree is a "must" for your lawn.

PRICES: Balled and Burlapped Specimens, 6 to 8 ft., \$9.00; 5 to 6 ft., \$6.50; 4 to 5 ft., \$5.00.

LIVE OAK. Same graceful tree you see growing throughout the South. Similar to the Magnolia Grandiflora in as much as it holds its beautiful green leaves through the winter. The variety we have is much harder than the common Live Oak and will definitely hold its leaves throughout the year.

PRICES: Balled and Burlapped Specimens, 5 to 6 ft., \$8.95; 4 to 5 ft., \$7.50.

NON-FRUITING MULBERRY. One of the most beautiful and rapid growing trees we know of. This absolutely non-fruiting tree has a smooth, attractive trunk and large, dark green leaves. Promises to fill a need for a really good, rapid growing shade tree. This very hardy tree makes a perfect shade for any yard.

PRICE: 5 to 6 ft., \$4.49.

SYCAMORE. A rapid growing, handsome tree with a well formed head and interesting white bark. Leaves are heart-shaped. Straight, beautiful grower.

PRICES: 10 to 12 ft., \$3.95; 8 to 10 ft., \$2.95; 6 to 8 ft., \$1.95; 4 to 6 ft., \$1.25.

**Bloom First Year From May till Frost
and Many Years Thereafter**

You can enjoy thousands of blooms this year from Ozark perennials. They are easy to grow and come up year after year, giving you masses of color and fragrance throughout the spring, summer and fall. For borders, rock gardens, and beds they are unexcelled. All of our plants are hardy, heavy, field-grown clumps, shipped to you fresh dug and carefully packed so you receive them in perfect condition.

COLUMBINE (Aquilegia)

A magnificent plant of very large flowers with long spurs, robust growth and rich color. Few plants are more pleasing in the garden than Columbine, especially in shaded places. Your choice of Blue, Pink or Yellow.

GAILLARDIA (Blanket Flower)

We consider the Gaillardia one of the most desirable hardy plants in cultivation. The full, circular flowers are of a rich burgundy tipped with gold. Large blooms supported by strong stems above the pale green foliage continues from June to November.

CHRYSANTHEMUMS

The finest of the large flowering, tall growing Chrysanthemums. Not only do they have sparkling clear, crisp colors, but they are weather resistant as well. Long stems and large blossoms make them excellent for cutting. Choose from one of these hardy varieties that bloom from September to frost:

Charles Nye. Brilliant golden yellow, double.

Polar Ice. Pure white, double flowers.

Red Velvet. Rich velvety crimson flowers, fully double.

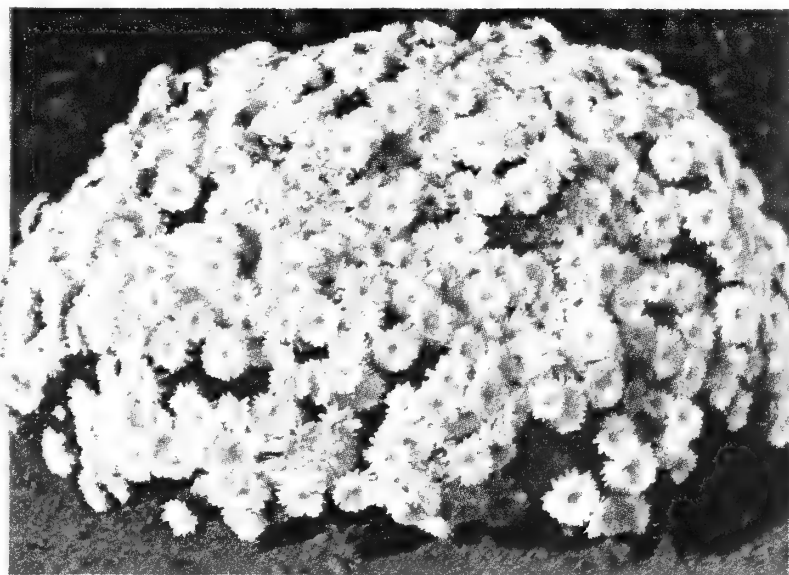

September Dawn. A true pink flower, very large and double.

Chrysanthemums

ALYSSUM

Big clusters of bright yellow flowers in early spring. Perfect in rock gardens or as edgings to beds. One of the best early plants to use with Tulips.

Cushion Mums

CUSHION MUMS

Often called Million Mums, but does actually become covered with thousands of lovely Mums in August lasting until frost. Blooms first year. Hardy, easy to grow, and multiplies year after year. Your choice of colors: Red, Pink, White, Gold and Bronze.

CREEPING PHLOX

(Phlox Subulata) (Thrift)

Cherished as much for its refreshing moss-like evergreen foliage as for its masses of flowers that appear in early spring. Showy colors of red, white and blue. Low, compact, spreading growth.

HARDY CARNATIONS. These are the same fine, spicy fragrant flowers you pay a fancy price for at a greenhouse, but hardy. Blooms all summer and we think one of the finest garden plants. Easy to grow. Your choice of the following lovely double colors: Red, Yellow and White.

SHASTA DAISY. Beautiful in the garden and fine for cutting. Large flowers 2 to 3 inches across, petals of white and clear yellow center on long stems. A profuse bloomer. Thrives in ordinary soil.

PERENNIAL SWEET PEAS. Favorite of flower lovers. Delightful flowers in July, August. Marvelous for porches, trailing over banks, coves, trellis and fences. Flowers are larger than annual Sweet Peas. Your choice of Pink, Red or White.

LILY-OF-THE-VALLEY. Delightfully fragrant white flowers. Thrive in shade or full sun. Heavy clumps of 5 to 7 pips.

LIROPE MUSCARI. A good grass-like plant that has a well defined and interesting habit of growth. Leaves are dark green and narrow, with small flowers of violet or white. A perfect plant for Rose bed, sidewalk or any place where a beautiful border is needed.

HARDY PHLOX. A truly superb plant with flowers almost six times as large as the ones pictured. Our plants are heavy, field-grown plants that will bloom freely for you this summer and many years to come. Grow in full sun or partial shade. Can be divided year after year. Varieties:

Africa. Brilliant carmine-red.

Mary Louise. Pure snow-white.

Irene. Soft light red.

Caroline Vandenberg. Beautiful blue.

Royal Purple. The best purple.

Salmon Glow. Flame-pink with salmon shading.

ORIENTAL POPPY. A lovely plant that can be planted from early fall to spring. This variety is a brilliant scarlet of large size.

SWEET WILLIAMS. Dense, rounded flower heads formed by 20 to 30 flowers on an 18-inch stem make this a "must" for your garden. Foliage is short, heavy textured, green. Your choice of colors: Pink, Red or White.

TEUCRIUM CHAMAEDRYS. A beautiful plant with glossy green foliage resembling Dwarf Boxwood. Perfect for planter boxes or any other place Boxwood is used.

WHITE YUCCA. A very beautiful plant with delightfully creamy white flowers on long stems in June. Entirely hardy and a plant you will cherish more each year.

RED YUCCA. A superior type Yucca that is brilliant red and blooms continuously from May until frost. Often has 5 to 10 bloom stems.

TRITOMAS (Red Hot Poker). Brilliant orange-red flowers on graceful stems, nearly 3 feet tall in August and September. Hardy.

ESTHER REED DAISY. A lovely all-double Daisy. It has the same cut flower qualities as Shasta Daisy only has the solid white center. The best for flower arrangements. The Daisies are a "must" for your dry weather garden locations. **PRICES:** 69c each; 3 for \$1.79.

DELPHINIUM. This beautiful plant produces more spikes and is much more graceful than most Delphiniums, therefore it is much desired for cutting. Lovely flowers produced abundantly in June and again in September. Choose from light or dark blue varieties.

HARDY CLOVE PINKS. Nothing is more beautiful than a Clove Pink in bloom. Medium sized plants, very compact with long stems just right for cutting. Beautify your home by choosing one of these colors for planting. Red, White, Pink.

DESMODIUM. A beautiful low growing shrub with long and drooping clusters of rose-purple flowers. Beautiful foliage of oblong-elliptic leaves. Have beautiful blooms in the fall of the year when beautiful blooms are really appreciated.

OLD-FASHIONED BLEEDING HEART. Graceful, heart-shaped, rose-pink flowers in April-May. Thrives in partially shaded places. 2 feet. Extra heavy plants. **PRICES:** 95c each; 3 for \$2.50.

BABY'S BREATH. Remarkable for its numerous feathery panicles of small, starry white flowers borne in profusion on thread-like stalks during the early summer.

GIANT HIBISCUS (Mallow Marvels). Flowers as big as saucers. Shrub-like perennial 4 feet tall. Blooms in July and August when most other plants have stopped. Pink, Red and White.

DOUBLE HOLLYHOCKS. A fascinating new strain with gorgeous double flowers. Hardy and easy to grow. Colors Red, Pink and Yellow.

CANDYTUFT. Very desirable dwarf plant covered with white flowers in April and May. Very good for edging and rock gardens. Foliage is evergreen and plant is attractive even when not in bloom.

DU PONT FLORAL DUST

Gardening is easier with a product so safe that it can be used on tenderest blooms for prevention of insects and diseases, yet powerful enough to control the most severe attack. That's why this simple, easy to use chemical control is so effective for all insects and diseases on Roses, perennials, annuals, shrubs, evergreens, etc., throughout the season. May be used as a spray or dust. PRICE: 8-oz. dust gun, 98c.

TUBEROSE

(Fragrant Mexican)

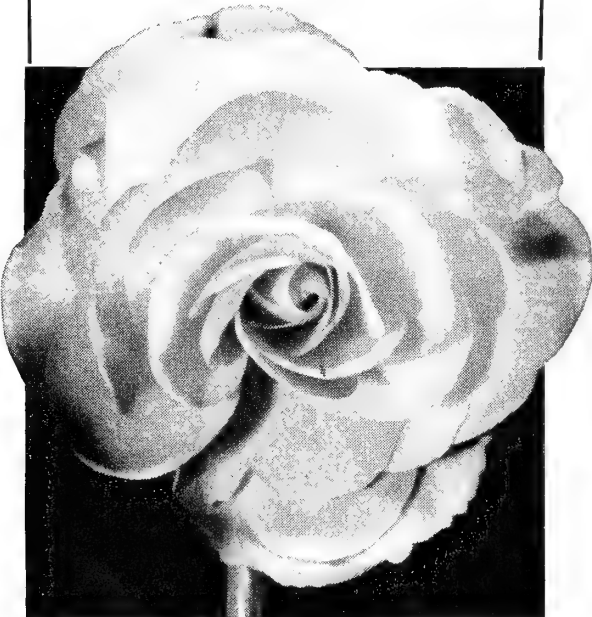

Graceful, waxy white flowers on spikes 30 to 36 inches tall. Excellent for cutting and so superbly fragrant a single spike will perfume a room. Often 20 or more flowers on a single plant and blooms from July to frost. Plant outdoors after danger of frost and handle like Cannas. PRICES: 12c each; 12 for \$1.10.

Avalon Dahlia

Tuberous Begonias

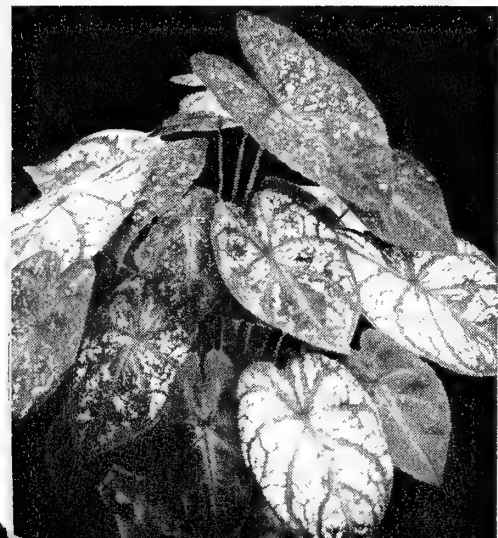

No illustration can do justice to the exquisite beauty of these thrilling Tuberous Begonias. They are started from tubers, can be grown easily in the garden or potted and will give you an amazing abundance of blooms. Excellent for shady spots. Colors are brilliant, petals are satiny and blooms are produced over a long season. You will cherish these Begonias more than anything you have planted in years. Our bulbs are choice, selected 1½- to 2-inch bulbs. Include a selection of all colors in your order: Red, Pink, Yellow, Copper and White. PRICES: 29c each; 5 for \$1.25; 12 for \$2.50.

Tamarix

Calycanthus

Snowball

ALTHEA (Rose of Sharon). Large, double flowers and fancy green leaves. Blooms from mid-July to frost. Very popular and considered to be one of the showiest of midsummer flowers. A hardy grower (8 to 10 ft.). Choice of colors: Double Red, Double White, Double Pink, Double Purple. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

CALYCANTHUS (Sweet Shrub). Known to many as the Carolina Allspice. Deliciously fragrant chocolate-red flowers are produced in June. Then odd looking pods develop later which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual charm. Grows 4 to 6 feet tall and will endure shade. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.39 each.

CRAPE MYRTLE. Often called the South's most beautiful shrub and can be grown as far north as Kansas City. Very hardy and blooms on new growth similar to Roses; so cut back severely each spring. Will bloom this summer and each year from midsummer to frost. Our new striking colors are much improved over the old strain. Red, Pink, Purple and White. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

DWARF WHITE DEUTZIA (Deutzia Gracilis). A charming little "must" for every garden that seldom grows more than 2 or 3 feet high. The plant makes a fountain-like bush, attractive at all times of the year. In May it is covered with an astonishing profusion of delicate snowy white flowers. It does well in light shade and is well adapted for low edging to walk or paths, excellent in clumps in the foreground of other shrubbery. **PRICES:** 12 to 15 in., 98c each; 3 or more, 89c each. 15 to 18 in., \$1.25 each; 3 or more, \$1.15 each.

DWARF PINK DEUTZIA (Deutzia Gracilis Rosea). A very bright and cheerful dwarf shrub that seldom grows more than 3 feet. In May there is a superabundance of delicate pink flowers in clusters covering the entire plant. Beautiful throughout the year with narrow foliage in gracefully drooping branches. Especially good for plantings along walks, drives and foreground of other shrubbery. Does equally well in sun or light shade. **PRICES:** 12 to 15 in., \$1.25 each; 3 or more, \$1.15 each. 15 to 18 in., \$1.49 each; 3 or more, \$1.39 each.

DEUTZIA LEMOINEI. A new hybrid Deutzia with a desirable graceful habit. It is a mass of white flowers in May. The thickly clustered blossoms are very showy. A low growing habit makes this shrub easy to use in your borders. Seldom reaches four feet. **PRICES:** 12 to 18 in., 98c each; 3 or more, 89c each. 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each.

Vitex

EUONYMUS ALATUS COMPACTA. Dwarf, compact shrub with large, thin-textured leaves which turn to deep warm crimson in autumn. Its bark is corky and spreads out in flat wings of most interesting character. Is very useful for masses in landscape planting. **PRICES:** 12 to 18 in., \$1.69 each; 3 or more, \$1.60 each. 18 to 24 in., \$1.98 each; 3 or more, \$1.89 each.

HYPERICUM (Pot of Gold). A beautiful, low-growing shrub of glossy green foliage with a brilliant mound of dazzling gold flowers all summer. Flowers are large, about 2 to 3 inches in diameter, and very showy. Perfect plant for contrast in foundation plantings. **PRICES:** No. 1 plants, \$1.49 each; 3 or more, \$1.35.

POTENTILLA. A very charming small shrub with fine, almost feathery, dark green foliage and very compact growth. Its ultimate height is 2-2½ ft., making it excellent for under window plantings. Beautiful Buttercup-like flowers from June until October. **PRICES:** No. 1 plants, \$1.49 each; 3 or more, \$1.35 each.

PUSSY WILLOW. A beautiful round foliage shrub in the summer, with dainty silvery pink flowers in the winter. This is not the wild Pussy Willow but a fine cultivated variety. Plant one in your yard and take cuttings from it, placing them in water inside the house and watch them unfold their silvery pink catkins. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.39 each.

SNOWBALL. An old favorite that is still popular and impressive in the spring. Its large, white, snowball-like blossoms almost cover the shrub. Strong, heavily rooted plants. **PRICES:** 12 to 18 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.39 each.

BLUE MIST SPIREA. Fills the need for an attractive low growing shrub. The powder-blue flowers give it a misty appearing bloom from August until frost. Narrow silvery green foliage adds to the appearance. Cut off old tops every spring for best results. 12 to 18 in., 98c each; 3 or more, 89c each. 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each.

SPIREA BILLIARDI (Lilac spirea). Rose colored flowers in large cone-shaped spikes that bloom nearly all summer. Fine for cut flowers and a showy shrub in any landscape. 4 to 5 ft. high. Excellent for untrimmed hedge. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

SPIREA, DWARF WHITE (Spirea Callosa Alba). Grows and looks very similar to Spirea Anthony Waterer, except it is completely covered in spring with sparkling white flowers. Something new and unusual that is really worth while. **PRICES:** Heavy, 12 to 15 in., 98c each; 3 or more, 89c each. 15 to 18 in., \$1.25 each; 3 or more, \$1.15 each.

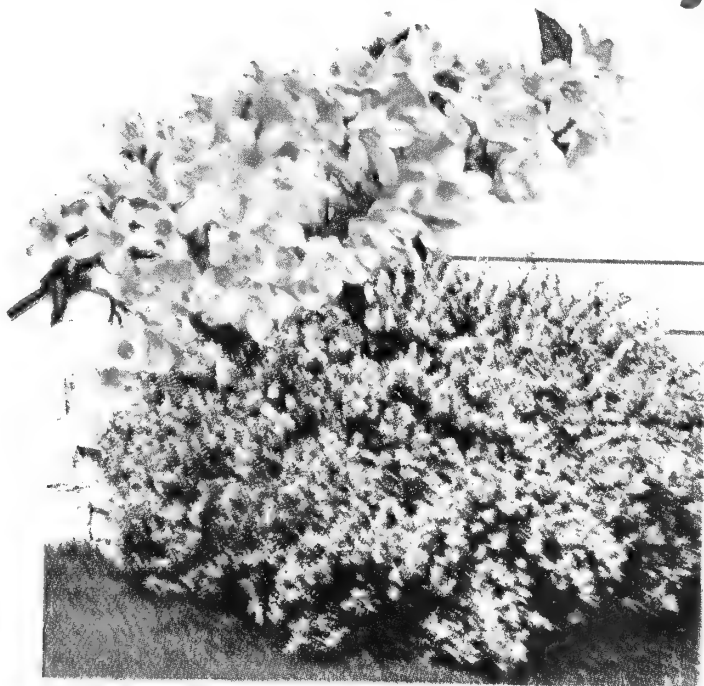

SPIREA REEVESIANA. A beautiful white flowering Spirea that blooms after Spirea Van Houttei. A very attractive, spreading shrub with graceful, weeping branches. Beautiful foliage and white blossoms in the spring. 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

SPIREA VAN HOUTTEI. One of the most common but still one of the most beautiful of all shrubs. Covered with glamorous, tiny pure-white flowers on graceful drooping branches in early spring. Also makes a beautiful untrimmed hedge. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

TAMARIX. An attractive, tall growing shrub with charming feathery, green foliage and brilliant pink flowers in May. Can be pruned to any desired height and will grow anywhere. Our selected strain is by far the best. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

VITEX (Chaste Tree). A lovely shrub that will start blooming in early summer and continue till late fall. Flowers are delightful lavender-blue on long branching spikes. Grows 6 to 8 feet with big palmate foliage. Fine for hot, wet, or dry locations. Not fussy at all. Will suggest a friendly welcome to your lawn. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

Beauty Bush

PINK FLOWERING ALMOND. Another one of spring's early beauties but one of the most outstanding. A small shrub with an abundance of double, Rose-like flowers, closely set upon twigs, before the leaves appear in early spring. Plant Pink Almond, Red Flowering Quince and Forsythia together and make your yard the show place in early spring. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

RED LEAF BARBERRY. A strikingly brilliant shrub that is very attractive and decorative in any planting. Has lustrous red foliage all summer and is followed by red berries in fall and most of the winter. Plant Red Leaf Barberry in sun to retain good color. Grows 3 to 4 feet high. **PRICES:** 15 to 18 in., 98c each; 3 or more, 89c each. 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each.

BUTTERFLY BUSH (Summer Lilac). A showy shrub that blooms profusely and continuously from early summer to frost. Flowers are huge and very fragrant. In winter the tops die down but come up even more vigorously from the roots in spring. Grows to a compact shrub 4 to 5 feet tall. Your choice of the following lovely colors: Pink, Purple, Red, White. **PRICES:** Heavy, No. 1 plants, 98c each.

CALLICARPA DICHOTOMA (Beauty Berry). A graceful, dwarf growing shrub with white flowers in July and August followed by masses of bluish purple berries. This hardy and vigorous growing plant will add beauty to any landscape. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

FORSYTHIA (Golden Bell). Spring's early beauty. Blooms first in spring and its lovely bright yellow flowers light up the entire yard. Grows 6 to 8 feet tall and nearly as wide. Will grow anywhere. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

LYNWOOD GOLD FORSYTHIA. A fine new Forsythia only recently brought over from Ireland. It has a pleasing deep yellow colored flower that is borne profusely on the branches from top to bottom. Cut some limbs to flower indoors during the winter. Here is the finest of additions to your flowering shrub bed. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

HONEYSUCKLE FRAGRANTISSIMA. Very delightful shrub with a delicious fragrance in tiny waxen flowers of white which are produced early in spring before the leaves appear. Foliage is rich dark green till midwinter. Beautiful white flowers are followed by masses of glittering red berries. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

HONEYSUCKLE ZABELI (Red Bush Honeysuckle). The finest, most attractive of all Bush Honeysuckles plus a distinctly new color of bloom. Deep red flowers of most exquisite fragrance are followed by brilliant red berries that ripen in midsummer and cling to the bush for several months. Look over your yard and you will find spots where this shrub will help make your home more attractive. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

KERRIA JAPONICA FLORAPLENA (Globe Flower). Truly year around beauty. Often called the Globe Flower since the lovely durable golden flowers have a ball-like shape similar to button Chrysanthemums. The plant grows vigorously and attains a maximum height of 4 to 5 ft. It is bushy in habit with many bright green stems, attractive all winter. Give it a sunny location in front of other shrubbery and its golden yellow blooms all summer will be a pleasure. The flowers last well in water and are excellent for cutting. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

BEAUTY BUSH. This charming shrub is magnificent as a specimen, in group plantings or for an untrimmed hedge. In the spring the graceful arching branches are completely covered with lovely pink blossoms, delightfully fragrant. Grows in ordinary soil in sun or part shade. Will be a beauty spot in your yard. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

YELLOW JASMINE. A low growing shrub with gracefully weeping branches and a profusion of yellow blossoms in the spring. Perfect low growing plant to use anywhere in your landscape. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

POMEGRANATE. A beautiful flowering shrub with an abundance of Carnation-like red flowers in the summer. The very compact and bushy shrub has beautiful light green leaves that make a perfect background for the gorgeous blooms. Beautify your yard by planting one of these beautiful Pomegranates. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

RED FLOWERING QUINCE (Cydonia Japonica). This attractive shrub produces loads of brilliant scarlet flowers, charmingly arranged all along stems in early spring, before foliage appears. Foliage is green tinged with maroon and very striking. Hardy, strong grower. Blooms first year. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

RUSSIAN OLIVE. A small tree or large shrub that seldom grows more than 20 feet. Silvery gray foliage makes it stand out among prevalent green trees. In fall orange berries are coated with silvery scales and are very showy. A tree that should be on every lawn. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

SWEET MOCK ORANGE. Mother Nature's perfume of the garden. This beautiful, sweet scented shrub blooms heaviest in May and June, but single orange-white blossoms can be seen almost any day during the summer. Fine for foundation and group plantings. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

WEIGELA, BRISTOL RUBY. (Pat. No. 492.) Gorgeous blooms of sparkling ruby-red, shading to garnet-crimson. Blooms are produced in immense quantities and create a wonderful display of colors. Blooms in spring, summer and fall. Few shrubs produce flowers as freely and over so long a period of time as does Weigela, Bristol Ruby. **PRICES:** 18 to 24 in., \$1.49 each; 3 or more, \$1.35 each. 2 to 3 ft., \$1.98 each; 3 or more, \$1.85 each.

CARDINAL SHRUB (Weigela Vaniceki). When the Cardinal Shrub was introduced it was so unusual, so outstanding, so spectacular, that everyone who saw it absolutely had to have a Cardinal Shrub in his own yard. It is hardy throughout the United States and blooms the first year. Produces in abundance, large red trumpet-shaped flowers in spring, summer and fall. We wish you could see them blooming in our fields—truly a joy to see. Certainly a plant that deserves a place in your yard. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

GOLDDROP WEIGELA (Weigela Variegated). An attractive new shrub with handsome green leaves, but the true beauty comes from the golden white edges around the leaves. To add to this beauty are pink, trumpet-shaped flowers in June, giving it the appearance of glowing gold. Be first to thrill your entire neighborhood with this new plant. **PRICES:** 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

PINK WEIGELA (Weigela Rosea). Becomes completely covered with rose-pink, trumpet-shaped flowers in April and May. But it is still an ornamental asset to every yard the remainder of the summer with its beautiful green foliage on the graceful, arching branches. Weigela Rosea is an attractive shrub from early spring until late fall. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

Blue Hydrangea

DOUBLE MOCK ORANGE

Lovely, large, double, white flowers in great profusion in May-June and through the summer. Deliciously fragrant. Makes a neat, graceful and very beautiful bush. 6 to 8 ft. tall.

PRICES: 18 to 24 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

Double Mock Orange

HYDRANGEA P. G.

The most striking of all shrubs. It produces huge white, cone-shaped flowers in August, turning pink, and finally bronze in September. Ideal for cut flowers. Exceptionally hardy. Grows 3 to 4 ft. Blooms first year.

PRICES: 18 to 24 in., 98c each; 3 or more, 89c each; 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

HYDRANGEA A. G.

An early blooming shrub that has immense snow-white blooms, very full and round. Perfectly hardy, thrives everywhere, but does better in shady places. Grows from 3 to 4 ft. tall and blooms from June until August.

PRICES: 18 to 24 in., 98c each; 3 or more, 89c each; 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.

BLUE HYDRANGEA

The hardiest of all Hydrangeas. Has immense flower heads 12 to 15 inches in diameter and lasts for many weeks. The flowers are pink in ordinary soil, while in acid soil they are blue. Make soil acid by watering twice a month with 1 tablespoon of aluminum sulphate per gallon of water, or by mixing acid peat moss with soil half and half.

PRICES: Heavy, 2-yr. plants, \$1.89 each; 3 or more, \$1.60 each. Medium plants, \$1.49 each; 3 or more, \$1.30 each.

HYBRID FRENCH LILACS

The most fragrant and beautiful of all Lilacs. Have bloomed already in the nursery row and will flower for you the next year after planting. Very hardy, grows 6 to 8 feet and does not sucker like the old-fashioned Lilac. Lovely as a single bush, a mass planting is breathtaking. Your choice of colors: Red, Pink, White, Blue and Purple. **PRICES:** 12 to 18 in., \$1.25 each; 3 or more, \$1.15 each. 2 to 3 ft., \$1.49 each; 3 or more, \$1.35 each.

Hybrid French Lilacs

MINNESOTA SNOW-FLAKE

(Plant Patent No. 538)

A beautiful outstanding, sweet-scented Mock Orange. Every blossom on this profuse bloomer is very double. A graceful, well branched shrub retaining its foliage longer and better than most of the Mock Oranges.

PRICES: 18 to 24 in., \$1.49 each; 3 or more, \$1.35 each. 2 to 3 ft., \$1.98 each; 3 or more, \$1.85 each.

GOLDEN VICARY

A beautiful, compact, ornamental foliage shrub with masses of golden yellow leaves all season. Very hardy and can be kept trimmed to any desired height. Excellent for planter boxes, side walk borders, or individual specimens. Grown in full sun they will add a splash of color to any landscaping.

PRICES: 9 to 12 in., 98c each; 3 or more, 89c each. 12 to 15 in., \$1.25 each; 3 or more, \$1.15 each.

PERSIAN LILACS

A more profuse bloomer of large clusters of blue flowers than the common, and does not sprout from roots. Starts blooming the first year and grows 6 to 8 feet high. Exceptionally vigorous. Plant one near your bedroom window and wake up smelling its pleasing fragrance. **PRICES:** 18 to 24 in., 98c each; 3 or more, 89c each. 2 to 3 ft., \$1.25 each; 3 or more, \$1.15 each.
